“USFP provided a unique pathway to fulfil a dream that I thought was nearly impossible. I saw it as the perfect place to start my higher education.”

Arthika, Sri Lanka
University of Sydney Foundation Program (USFP) graduate, now studying Bachelor of Advanced Science at the University of Sydney
Welcome

Students and researchers come to the University of Sydney from all over the world to prepare for a life of challenge and change.

The diversity of our students and staff is matched by the wide range of courses we offer – we stand out among Australia’s leading universities in the breadth of subjects you can study here. The University of Sydney is the institution of choice for more than 20,000 international students from more than 130 different countries.

The University of Sydney Foundation Program (USFP) and High Achievers Preparation Program (HAPP), provide ideal support for our undergraduate programs. By choosing these pathways you will have the chance to join many of the finest students and teachers in one of the world’s leading universities.
The University of Sydney is one of the world's top research universities and a member of the prestigious Group of Eight network.

The University of Sydney's reputation spans more than 160 years, and is ranked in the top 50 universities* in the world.

Our current enrolment of more than 60,000 students (including more than 20,000 international students representing more than 130 nationalities), enjoy an academic experience of the highest quality.

The University of Sydney

Great Sydney location
The University of Sydney is located in one of the world’s best cities and you are never far from Sydney’s famous harbour, Opera House or beaches. Studying on a beautiful campus, you will be surrounded by green parkland and a mix of rich heritage and modern architecture.

State-of-the-art learning
We have all the resources you will need right on campus, including Australia’s largest university library and state-of-the-art technical, computing and research facilities. As a top research university we offer the widest range of research programs and receive top funding from the Australian government.

Experienced faculty
Academics from around the world bring intensive teaching and business experience that will inspire your learning. The University is not just about teaching. We take real-life problems and look at them from all angles, uniting the expertise and insights of staff and students across multiple disciplines.

Campus life
The University is ranked No.1 for student experience in Australia with more than 200 clubs and societies on campus\(^*\), from academic groups to food, sport and debating clubs, so there is sure to be something for you. Run by students for students, our choice of clubs are a great way to meet friends who share your interests.

A history of excellence
Over the past 160 years, we have maintained a long tradition of excellence in education where we develop curious minds and embrace challenge and change. We have influential alumni in public and private sectors around the world. Holding integrity and quality close to our hearts, students, staff, alumni, business, industry and government alike are proud to be connected to the University of Sydney.

Why study the University of Sydney Preparation Programs (USPP)

Each University of Sydney Preparation Program provides the academic foundation you need to progress to your chosen undergraduate degree at the University of Sydney.

About the Programs

A choice of programs
We offer a range of start dates and course lengths depending on your academic level, time available, and university degree you wish to progress on to study. Courses range from our 17-week High Achievers Preparation Program to a 59-week Extended Foundation Program.

Expert teaching
The USPP faculty are experienced in teaching international students and will inspire you to learn through engaging and varied teaching methods. A combination of independent study and group work will develop your research, presentation and leadership skills to ensure you are thoroughly prepared for your degree at the University.

Essential preparation for university
The University of Sydney and USPP teams worked together to create the perfect academic stepping stone towards university-level education. We offer a choice of programs with the University of Sydney Foundation Programs and High Achievers Preparation Program.

You will gain:
- Progression to your chosen undergraduate degree at the University of Sydney upon successful completion of your desired program
- A smooth transition to university
- Excellent preparation for starting undergraduate study
- Greater independent learning and critical thinking capabilities
- A network of friends from around the world who have shared your journey to the University of Sydney
- Support and advice through our dedicated Mentoring Program (for students studying the High Achievers Preparation Program).

Quality assurance
The University of Sydney Foundation Programs (USFP) meet the requirements for Foundation Programs which have been registered on CRICOS for delivery in Australia to overseas students providing an academic preparation for students seeking entry to first year undergraduate study or its equivalent.

Scholarships
Every year our high performing students are awarded scholarships to support their further study at the University of Sydney.

Find out more about our programs on page 28.
Discover Life in Sydney

Set around a beautiful natural harbour, Sydney provides a stunning setting for your studies.

World-class culture
Sydney hosts world-class exhibitions at institutions such as The Australian Museum and Art Gallery of New South Wales. There are also regular performances of ballet, theatre productions and opera at the famous Opera House, the Sydney Theatre Company and many other venues throughout the city.

Food from around the globe
Enjoy a meal at some of Sydney’s famous ‘eat streets’ which have a truly global range of cuisines, including Italian, Greek, French, Spanish, Lebanese and Thai.

Choose one of the many famous beach restaurants with glorious views of the blue Pacific Ocean.

The great outdoors
Sydney has beautiful beaches and is home to a lively surfing, café and music culture. The coastal location is great for walking, cycling, boat trips and even helicopter tours.

Nearby National Parks include Sydney Harbour, Royal, and the Blue Mountains where you can enjoy picnics, swimming and barbecues. With hot summers and mild winters, you can enjoy everything Sydney has to offer all year round.

Festivals and Events
Sydney has festivals and events throughout the year, including comedy, film, fashion, wine and music, and it also hosts the unique international Vivid light festival.

Key facts
- Population: 4.6 million
- Australia’s oldest and largest city
- Ranked in the top 5 of the 50 best cities in the world to live, work and study, beating New York and London*
- Most popular city in the world for international university students#
- Home to world-famous landmarks, Sydney Opera House and the Sydney Harbour Bridge
- The economic hub of Australia
- Average temperatures in Summer: 14°C (57°F) to 25°C (77°F)
- Winter: 7°C (45°F) to 16°C (57°F).

# 2014 Global Cities Index.
Discover
Your home away from home

Experience real Aussie culture in a family homestay, enjoy city life in a safe and central student residence, or share with friends in a rental house or apartment.

Student residences
Across the city you will find a range of student residences for those aged 18 and older. These fully furnished apartments offer you the chance to live more independently while providing communal areas and cooking facilities to share with your new friends. Most residences provide 24-hour security.

Our College Accommodation Coordinators can provide you with assistance in finding a place to live.

“Experience real Aussie culture in a family homestay, enjoy city life in a safe and central student residence, or share with friends in a rental house or apartment.”

Lea Wu
UniLodge Central Park

“It’s really convenient, we have shopping malls and a train station. We usually just take a bus to college, it takes 25 minutes.”

Lea Wu
UniLodge Central Park

“Debbie is amazing, she makes the best dinners. It’s very good in homestay so don’t be nervous.”

Ran Yang (Vivien)
Homestay student

Studying the University of Sydney Preparation Programs

You will study with one of Australia leading providers for university preparation, which has an excellent reputation for delivering high quality education.

State-of-the-art facilities
Our purpose-built campus features the latest facilities, including:
- A reference and borrowing library
- Computer and science laboratories
- Art and design studios
- Student common rooms
- Music suite/practice rooms
- Interactive whiteboards
- Telescopes for astronomy
- A health centre.

Sydney on your doorstep
Located in the suburb of Waterloo, just five kilometres from the city centre, USPP provides easy access to all the attractions Sydney has to offer. You can take a 20-minute bus ride into the city centre or Green Square train station is just a short walk away.

Connected to the University
You are just three kilometres from the University of Sydney main campus. Staff from the University regularly visit our Waterloo location to talk to you about courses and university life.

Sports and social activities
Trips, sports and social activities are a great way to meet new friends and learn new skills. These activities, as well as cultural visits and excursions, are all part of your timetable so you can develop beyond your academic studies.

Leadership programs
Taylors Action Group (TAG) is a student group that enables you to arrange events and play a key role, and make a positive impact on life during your studies.

Taylors Model United Nations is another great activity to help students build cross cultural relationships, communication skills and improve leadership capabilities.

Supporting your career
We provide online resources and counselling to support your future career. By creating a competency profile you will have the opportunity to build and develop key employability skills.

“Sydney is a wonderful destination for international students. People from all over the world have made Sydney their home so students from overseas are made to feel most welcome. USPP is located very near to the city centre and major universities, including the University of Sydney, so students have every opportunity to experience both university life and Sydney’s many attractions.”

Chris Norton
USPP Principal, Sydney
Discover

Help and support

At USPP we offer a range of services to ensure you receive the very best care whilst you are away from home.

Academic support
Study Smart
USPP teachers and students use this industry-leading online system to share activities, learning materials and information.

Study guides
These guides include curriculum and assessment information plus further course materials and practice examination papers.

The library
In our large library you will find extensive print and digital materials to support your course. You also have access to quality research materials in the University of Sydney libraries.

Technology
We have computer rooms and Wi-Fi throughout the campus and iPads can be borrowed from the library. All classrooms have interactive whiteboards.

Tutorial groups
Teacher-led groups or one-to-one meetings are the place to ask questions and receive additional help with your studies.

Bring Your Own Device (BYOD)
Students should bring their own computer to lessons due to significant instruction in the classroom being conducted using our College intranet site “Study Smart”.

Personal support
Health facilities
Our well-equipped health centre is open throughout the day.

Personal counselling
If you need someone to talk to about study, health, career or personal issues, we are here to advise and assist you.

Supporting the under 18s
Our Student Advisers offer additional support to our younger students. You may also have a Caregiver who will keep in regular contact with the College and your parents. For extra security, all under 18 student accommodation must be approved by the College.

Airport transfer
For your peace of mind, we can arrange to meet you when you arrive at Sydney International Airport. We will give you a 24-hour phone number in case you need to let us know about changes to your flight details. Please let us know in advance if you need an airport transfer.

“My teachers believe in me. The way they teach me, the way they talk to me and the way they give me feedback makes me believe that I’m hard working and I can get to go to university.”

Kristen
Vietnam
USFP student

“When students first walk through our doors they are often a little nervous, unsure and trying to navigate through not only a new learning environment but a new country and culture – all in a second language. By the time they leave our doors, they are confident and self-assured young adults who are more prepared to tackle the next phase of their lives. And of course their English has significantly improved!”

Helen Argyros
Social Science / English Teacher

“The teachers were very kind and helpful to all of us. I came to visit them outside classes many times to clarify the lessons and sometimes to ask some other questions. They would answer each of them with patience and ask us whether or not their explanation was clear. I could never be more grateful than this.”

Anjie
Indonesia
USFP graduate

Discover
Expert teaching

USPP is taught by academics who know what it takes to achieve success at the University of Sydney. They will support you all the way.

Rosie Giddings
Dean, USPP

I have a strong background at the University of Sydney having obtained my undergraduate degree and two Masters degrees at the University, as well as working in research there for five years. I am passionate about international education, and became Dean of the preparation programs in 2001.

As Dean, my role is to help students achieve their full potential by supporting both their academic and welfare needs. I hold orientation information sessions, and manage our USPP Student Adviser Group, which helps students to decide on subjects and final degree choices. The Foundation and High Achievers Preparation Programs allow students to take part in all aspects of university life, and we take them on numerous excursions to the campus.

The University of Sydney values independent thought, critical thinking skills, information literacy, an understanding of world affairs, and good communication skills. Our USPP courses encourage all of these attributes in our students.

The world of work is now a global one, so studying at USPP will enable you to have contacts all around the world thanks to the 40+ different nationalities of students who study with us. The cross cultural knowledge that you gain is immeasurable.

“I personally try to instil the students with the confidence that their career goal is attainable, and also by acknowledging how amazing they are for having the courage to aim for an education in another country at a highly ranked university.”

Paula Gothelf
Associate Dean, USPP

I have worked at the University of Sydney Preparation Programs College for 22 years in various roles. After completing my undergraduate and postgraduate study at the University of Sydney I worked in research for four years before moving into teaching.

Our programs provide students with time to increase their English language proficiency. They also prepare them to meet the demands of a different teaching and learning environment, and to develop the academic skills required to support their future success at the University of Sydney.

University of Sydney graduates can effectively apply and communicate knowledge. They are also global citizens who contribute to society in a meaningful way. The USFP and HAPP programs develop these qualities through our academic and non-curriculum activities. Students have the opportunity to be involved in our careers program, clubs, events, leadership group, and charity activities which enable them to expand their outlook and to develop and cement new friendships.

“The feedback we receive from our students in first year at the University of Sydney is excellent. Our students do almost as well as local students, which is remarkable. We are so proud of them.”
Programs
About the University of Sydney Foundation Program (USFP) and High Achievers Preparation Program (HAPP)

Studying USFP or HAPP will give you the skills and preparation you need to successfully begin an undergraduate degree at Australia’s first and most experienced university.

Working with the University
The University of Sydney oversees the setting and moderating of final examinations, you can be assured of the highest quality assessment.

Lecturers from the University of Sydney visit USPP, giving you the opportunity to find out more about your course options.

Supporting your needs
Our staff are experienced in recognising the needs of international students. They are here to assist you with anything from organising your studies and selecting your university course, to supporting you with any problems you may have.

Helping you settle in
Our experienced staff will assist you to settle into life at USPP and in Australia, offering you the support and regular assurance you need to achieve your academic best.

With students from many different countries and cultures, we provide an environment that respects everyone while accommodating your individual needs.

Keeping you on track
You will have access to a Student Adviser who can help with both academic and personal problems. Our Student Advisers, Associate Dean, Careers Advisers and Dean of Students help by monitoring your attendance and academic progress.

Course and career guidance
We have on-campus Careers Advisers who can offer you valuable course and careers advice. It’s about more than just good grades in your pathway program, you need the best advice to help you prepare for the future.

“The best thing about USFP was the excursions to the University of Sydney for classes. I see this as the college’s effort to ensure that we comprehend the lesson fully, not just theoretically.”

Anjie
Indonesia
USFP graduate
Now studying Chemical and Biomolecular Engineering at the University of Sydney.
Your most effective path to a University of Sydney degree is through the USFP or HAPP. They are rigorous, focused programs that provide you with the right training for university.

**A choice of programs**

Depending on your previous achievements and our requirements, you can choose the right program length and start date for you.

**University of Sydney Foundation Programs (USFP)**

**Standard Program (40 weeks)**

The Standard Program takes 40 weeks to complete. You will study five subjects each semester across a 25-hour weekly timetable. Each subject is divided equally so you study each one for five hours per week.

**Intensive Program (30 weeks)**

The Intensive Program is similar to the Standard Program but has 30 hours of lessons per week, meaning you can complete the program more quickly.

This program requires a higher English language level than the Standard Programme. Subject choice in the first study period is limited.

**Extended Program (59 weeks)**

The Extended Program combines the 40-week Standard Program with 19 weeks of study skills and English language training.

For the first 19 weeks you will study Extended English, Australian Identity, Essential Computing Skills and the Essential Student Skills Course, plus two subjects from the 40-week Standard Program. Following this, you must pass Extended English and Australian Identity to continue with the 40-week Standard Program.

**Assessments:**

- English language
- Academic progress

English language proficiency is assessed within the program and each student is awarded a grade from A to F. The C grade is the minimum required for entry to the University of Sydney.

Academic progress is assessed throughout each term and in final examinations at the end of each semester. Your performance is carefully monitored and you will be given regular feedback on your progress. Final assessment includes a mixture of coursework and tests.

- Grade Point Average (GPA)

You will receive a grade for each subject, other than English, assessed on a 10-point scale. An average score (GPA) is calculated across our eight different subjects.

**High Achievers Preparation Program (HAPP)**

The High Achievers Preparation Program is designed for students who just missed out on direct entry to the University of Sydney. It is a fast-tracked program, which is a maximum of 18 weeks. HAPP will help you transition from high school to starting your chosen Bachelor Degree.

You will study English and Uniprep, plus a choice of two of the following per term: Australian History, Literature, Sociology, Science Practicum and Advanced Mathematics.

- A Grade Point Average (GPA)

You for your other eight subjects.

**USFP Final Grades**

University entry is based on two separate results:

1. A letter grade for English
2. A Grade Point Average (GPA) for your other eight subjects.

**HAPP**

The High Achievers Preparation Program is a competency based course. By successfully completing all of your subjects, and meeting the English entry requirements, you quickly progress to the degree you wish to study at the University of Sydney.

**Course information and start dates**

Turn to page 42 for a list of entry requirements.

* Available for Science and Economics streams only.

*Some degrees require additional selection criteria i.e. Portfolio and/or audition and/or interview. Please refer to course information on the ‘Find a Course’ website at sydney.edu.au/courses. Available courses depend on your entry grades, see page 43.
programs

course structures

usfp standard and intensive program structure

1. choose the course/s you wish to study at the university of sydney and from the table below choose the stream (area of study) consistent with the course/s.
2. identify the compulsory core subjects in the chosen area of study.
3. choose one subject from the list in group 1. use the recommended subjects for each undergraduate course offered as listed on pages 44-48 to help guide your choice.
4. choose one, two or three subjects from the list in group 2. these subjects are available to students in all streams.
5. a total of ten subjects must be studied. english a and b, plus eight other subjects (four pairs or three pairs plus two minors). each subject is studied for five hours per week. a minor is a subject only studied for one semester.

essential computing skills is studied for ten hours per week and student skills sessions occur during student meetings.

sample programs and gpa calculations

usfp extended program structure

1. choose the course you wish to study at the university of sydney (see pages 44-48) and from the table below choose the stream (area of study) consistent with the course/s.
2. identify the compulsory core subjects.
3. for your first semester choose two subjects from the list of possible subjects consistent with the course you are interested in studying at university. these subjects are considered part of your final gpa.
4. study a total of four subjects plus ecs and ess subjects.
5. on successful completion of the first 19 weeks above choose subjects as outlined for the standard program.

* january intake only.
* april and october intakes not available.
* january standard and extended august intake only.
* essential computing skills + essential student skills.
* an additional academic subject may be studied in semester 2 or 3.
* each subject is studied for 60 hours per day.
* each subject is studied for 44 hours in total.
* subject selection may be limited. for a full list of subject descriptions, refer to pages 32-36.
High Achievers Preparation Program Structure
1. The program is a maximum of 18 weeks over 2 terms that prepares you for your chosen degree at the University of Sydney.
2. Two compulsory subjects are followed with a choice of two study options in each term.
3. The program is competency based. Available courses depend on your entry grades: see page 43. By successfully completing all of your subjects, and meeting the English entry requirements, you progress to the degree you wish to study at the University of Sydney.

“USFP is a really good program designed not only to allow you to study at a prestigious uni, but also to be able to do well in it.”

Andrew, Taiwan
USFP graduate, now studying a combined degree of Bachelor of Commerce and Bachelor of Laws at the University of Sydney.
#### Programs

**Subject descriptions**

**USPP Standard and Intensive programs**

**English**

- **UAEPP Preparation English A & B**
  - Language skills including oral presentations, academic writing, advanced reading and comprehension, and active listening
  - Advanced academic skills, including critical analysis, independent learning, time management, research, referencing and project management.
  - English 40% coursework and 60% examination results for both English A and English B.
  - English A is a prerequisite for English B.

- **Accounting**
  - Basic accounting concepts
  - Double-entry bookkeeping
  - Financial accounting reports
  - Cash-flow analysis.
  - 50% coursework and 50% examination final results.

- **Accounting A**
  - Basic accounting concepts
  - Double-entry bookkeeping
  - Financial accounting reports
  - Cash-flow analysis.
  - 50% coursework and 50% examination final results.
  - Nil.

- **Accounting B**
  - Basic accounting concepts
  - Double-entry bookkeeping
  - Financial accounting reports
  - Cash-flow analysis.
  - 50% coursework and 50% examination final results.

- **Australian Studies A**
  - Contemporary issues in the Australian environment
  - Weather, climate and hazards of the Australian environment
  - Issues and case studies in the Australian environment.
  - 50% coursework and 50% examination results.

- **Australian Studies B**
  - Early Aboriginal life
  - European exploration
  - Colonial development
  - Federation
  - Australia in the 20th century.
  - 50% coursework and 50% examination results.

- **Australian Studies A**
  - Early Aboriginal life
  - European exploration
  - Colonial development
  - Federation
  - Australia in the 20th century.
  - 50% coursework and 50% examination results.

- **Biological Sciences A & B**
  - Plant and animal systems
  - Ecology
  - Genetics
  - Evolution
  - Microbiology
  - Genetic engineering.
  - 50% coursework and 50% examination results.

- **Chemistry A**
  - Basic chemical reactions
  - Introduction to stoichiometry
  - Structure and bonding
  - Each topic is accompanied by practical work.
  - 50% coursework and 50% examination results.

- **Chemistry B**
  - Properties of matter
  - Reaction stoichiometry
  - Organic chemistry
  - Energy and electrochemistry
  - Equilibrium, acids and bases.
  - Each topic is accompanied by practical work.
  - 50% coursework and 50% examination results.

- **Economics**
  - The Operations Problem
  - Economic costs
  - Productivity
  - University Intervention in the Economy
  - Theories of the Firm
  - Returns to Scale
  - International Trade.
  - 50% coursework and 50% examination results.

- **Economics B**
  - The Economics Problem
  - Fixed & Variable Costs
  - Elasticity
  - Government Intervention
  - Theory of the Firm
  - Returns to Scale
  - International Trade.
  - 50% coursework and 50% examination results.

- **Foundations of Social Science A**
  - Introduction to personal development, social change and research skills, which are key to the undergraduate study of Psychology and Sociology.
  - Students learn a variety of research methodologies and apply them to their chosen Personal Interest Project (a 5000 word report).
  - 50% coursework and 50% examination results.

- **Foundations of Social Science B**
  - The nature-nurture debate
  - Socialisation agents in the development of a personal identity
  - Social theory to explain change in society.
  - 50% coursework and 50% examination results.

- **Foundations of Social Science A**
  - The nature-nurture debate
  - Socialisation agents in the development of a personal identity
  - Social theory to explain change in society.
  - 50% coursework and 50% examination results.

- **Foundations of Visual Arts and Design**
  - Drawing
  - Painting
  - Digital art and design
  - History and Critique Theory of Art and Design.
  - 50% coursework and 50% examination results.

Programs
Subject descriptions (continued)

USFP Standard and Intensive programs (continued)

**Music**
- Core Program A
  - Develop music performance skills.
  - Attending concerts.
  - Participating in concert suites, duos, ensemble.
  - Widening musical repertoire.
  - Meeting professional musicians.
  - 50% coursework and 50% final examination. An equivalent to Grade 9 or ARBR Grade 8 is practical for instruments.
  - Nil.
- Core Program B
  - Music Theory A
    - Music History.
    - Music history.
    - 50% coursework and 50% final examination. An equivalent to Grade 9 or ARBR Grade 8 is practical for instruments.
    - Nil.
- Elective A
  - Solo and Ensemble Performance.
  - Music Theory (including Music History & Music Aural).
  - Individual Class (one-on-one lessons are provided to each student for an additional fee).
  - 50% coursework and 50% final examination. This subject assumes students have some knowledge of musical notation. An audition and interview are required. An additional fee for individual tuition is payable for this subject.
  - Nil.
- Elective B
  - Solo and Ensemble Performance.
  - Music Theory (including Music History & Music Aural).
  - Individual Class (one-on-one lessons are provided to each student for an additional fee).
  - 50% coursework and 50% final examination. Pass Music Core Theory A.
  - Nil.

**Physics**
- Mechanics, Electricity
  - Equations of motion.
  - Forces and Newton's Laws.
  - Energy, momentum and work.
  - Electrodynamics and electrodynamics.
  - 50% coursework and 50% final examination. Year 11 Physics or equivalent. At least Mathematics for Humanities, but Mathematics for Science is strongly recommended.
- Waves and Light
  - Waves and Light.
  - 50% coursework and 50% final examination. Year 11 Physics or equivalent. At least Mathematics for Humanities, but Mathematics for Science is strongly recommended.

**Advanced Mathematics**
This subject is aimed at students who want to take Mathematics for a tertiary subject or degree at a university. It enables students to increase their knowledge of mathematical ideas and extend their understanding of mathematical concepts. Students will be introduced to new technology. Aural: To print or USB stick or via a web link or DVD.

Extended Australian Identities
This subject focuses on the human characteristics of contemporary Australian society, on the factors that have influenced the making of an unique nation and the diversity of Australian communities. The course aims to provide knowledge, skills, understanding and values regarding Australia's historical and current environments and aspects of Australian society and its individuals, families and communities.

High Achievers Preparation Program

Subjects
- Assessment
- Prerequisites
- Co-requisites

**Advanced English**
- The Advanced English course is designed for students with a special interest in mathematics who have shown that they possess a significant aptitude for the subject. It provides students with the background and skills necessary for university study requiring a high level of mathematics.
- Application of mathematics to theoretical and real world problems and the ability to communicate mathematical ideas is emphasised throughout the course.
- Competency based.
- Year 12 Mathematics or equivalent.
- Nil.

Humanities 1: Australian History
- This course investigates the major academic, social and political issues that dominate Australian History between the immediate post World War I period and today. During this time Australia has developed from a largely agricultural and manufacturing society to a multi-cultural and highly urbanised country with political and social links to Asia becoming increasing significant. During this period Australian rights and freedoms have been critical issues that have shaped the national outlook and sense of what it means to be an Australian in the 21st Century.
- Competency based.
- NIL.

Humanities 2: Literature
- This course is an elective in the course. It aims to provide training in analysis and communication needed for further academic studies. The course will enhance English language and literacy skills through imaginative and critically engaging with a range of texts in chosen areas of study.
- Competency based.
- NIL.

Humanities 3: Sociology
- This course investigates the contemporary social and cultural world. The course will explore the interactions between person, culture, society and the environment across time with the view of exploring why some issues stay the same and why some change in the modern world. This course draws upon inter-disciplinary concepts and social research methodologies from anthropology, communication, cultural studies, media studies, philosophy, psychology and sociology. By taking this course you will learn to conduct social research and to analyse your own world from a modern viewpoint.
- Competency based.
- NIL.

Science Practicum
- This subject is designed to provide students with a practical understanding of the development of language skills necessary for tertiary study. It also aims at the development of the research, analysis and laboratory skills necessary for undergraduate study in science, chemistry and physics.
- Competency based.
- NIL.

Uni Prep 1 and 2
- This subject aims to investigate and consolidate academic skills in Research, Communication, Work Submission and Examination Techniques.
- Competency based.
- NIL.
“I recommend studying USFP because it really prepares you for university, so you won't struggle when you commence there.”

Claudia, Indonesia
USFP graduate, now studying Bachelor of Medical Science at the University of Sydney

During or on completion of HAPP, if students wish to transfer from a degree with a lower IELTS cut-off to a degree with a higher IELTS cut-off, and have not already met the IELTS cut-off for the new course, they will need to submit a new IELTS to meet the new requirements. Students should consult the relevant stream programs at the point of entry and will be assessed by the University's admissions team on a case by case basis.

Please note that we use the abbreviation ‘B’ for ‘Bachelor of’, ‘H’ for ‘Master of’ and ‘D’ for ‘Doctor of’ throughout these course tables. 

* Courses with a listed number of places. The GPA Listed is the minimum.

** Please refer to the University’s Course Search or ‘Find a Course’ website, sydney.edu.au/courses/ for more information on progression requirements for double degrees.

Note: Information listed are a guide only and are subject to change. For more course information, visit the University of Sydney “Find a Course” website: sydney.edu.au/course/

Students must start the course of their choice in the immediately subsequent semester. A gap in the study period cannot occur.

* A+ stands for ATAR (or equivalent) plus other selection criteria, for example, audition or interview.

Guide to entry qualifications
Please note that we use the abbreviation
B for Bachelor of
M for Master of
D for Doctor of

Key to Symbols
A & B Parts A and Part B must be completed.
A &/or B Complete both Parts A and Part B or choose either Part A or Part B. Note offered in the March semester only.
Mar/Jul Offered in both the March and July semesters. July intake is reviewed annually and may be cancelled without notice.
# Mid year entry is available. However, students may have limited options available in Semester 2. Some courses may take longer to complete or require attendance at Summer School. Please refer to the relevant faculty for further details.
* Combined Law students who commence in July do not commence their law studies until the March semester. While students will usually be able to complete in the standard duration listed, there are limited options available in Semester 2 which may result in enrolment issues for some students.
** Students may have limited options available in Semester 2. Some courses may take longer to complete or require attendance at Summer School. Please refer to the relevant faculty for further details.
* There are limited number of places available in this course. It is possible that not all students will be offered a place or be able to accept an offer once course capacity is reached.
** Please refer to the University’s Course Search or ‘Find a Course’ website, sydney.edu.au/courses/ for more information on progression requirements for double degrees.

CareerAhead

With your future career in mind, we have introduced a new careers program to our University of Sydney Preparation programs.

Skills for success
The CareerAhead service is designed to give you a head start in today’s competitive graduate employment market by helping you become a confident, highly skilled and extremely employable graduate.

How CareerAhead works:
Before you arrive
You will receive helpful information and advice from our admissions team about CareerAhead and what it can do for you.

When you arrive
You will get a full overview of the CareerAhead program and complete an online skills assessment in your own language. You will then receive a full report that highlights your existing skills and specific areas you need to focus on developing.

At USPP
You will participate in a wide range of activities and projects that are designed to develop a whole range of employability skills.

CareerAhead will help you:
− Identify your natural strengths and the skills you need to improve
− Get a better understanding of the employment market in your home country, as well as in Australia
− Write an impressive CV and a personal statement
− Boost your confidence by practising interview skills
− Make the right choices for your future career.

At The University of Sydney
Even when you progress on to your degree at The University of Sydney, your career support continues. This comprises completing a range of assignments from your personal development plan that will help you develop the skills you need to work in your chosen career when you graduate. Assignments include activities such as volunteer work and taking the leadership role in sports teams and societies.
Academic English Preparation (AEP)

If you need to increase your level of English language skills in order to study an academic course, Academic English Preparation (AEP) is the perfect solution.

### AEP at a glance

No IELTS required on successful completion of the required level of AEP. This means you do not need to take an IELTS test before progressing to your academic program.

**Fast, effective progress in speaking, writing, reading and listening**

The program focuses on maximising your progress in each of the four core English skills.

**Fundamental skills for academic learning**

You will develop note taking, essay writing, presentations and summarising skills to help you learn faster and with greater confidence. To help achieve this, modern educational technology is used extensively.

**Personal study plan**

When you apply, your English competence level will be determined. When you arrive on campus you will then be assessed to make sure you start your English course at the right level.

**Extension**

You may extend your study plan if you do not manage to achieve the required level for your academic course.

**Maximise your support**

Class sizes are kept small so your progress can be monitored closely.

**Regular testing**

Your progress will be regularly checked to help ensure you reach your full potential, with reports provided every five weeks.

**Delivered on campus**

Your AEP lessons consist of 23 tuition hours per week.

**Teachers**

AEP teaching staff are highly qualified and experienced professionals in the English as a Second Language (ESL) field.

**Academic support**

You will receive academic advice to ensure you make a smooth transition to your academic program.

**Course length**

The minimum course length is ten weeks.

---

**2017 start dates**

- 2 January
- 6 February
- 20 March
- 24 April
- 12 June
- 17 July
- 4 September
- 9 October
- 20 November

---

“Because the University of Sydney is world renowned, it gives me a plus to get my degree there as opposed to a degree from my country. Then I can go back to my country and try and help it.”

**Nely**

Mozambique

USFP student graduate
How to apply

You can apply to USFP or HAPP directly or through your local agent. Whichever option you choose, we’re available to help you every step of the way.

To apply direct (students)
Visit: taylorscollege.edu.au/apply, or complete the application form and return it to the Admissions Centre along with the supporting documents outlined in step two.

Address
Admissions Centre
Level 24, 201 Elizabeth Street
Sydney NSW 2000, Australia
E: aniszcadmissions@studygroup.com

To apply through an agent
Complete the application form and return it to your local representative along with the supporting documents outlined in step two. For a list of USPP authorised representatives in your country, please visit: taylorscollege.edu.au/about/agent

Student visas
For information on student visas to Australia, please go to the Immigration Australia website immi.gov.au

Please contact the Admissions Centre or USPP to facilitate your Conditional Offer and Confirmation of Enrolment.

Student visas
For information on student visas to Australia, please go to the Immigration Australia website immi.gov.au

STEP 1
Complete all sections of the International application for admission form.

STEP 2
Attach the following documents:
- Verified copies of your academic qualifications (translated into English)
- Evidence of English language proficiency
- A copy of your passport (or Birth Certificate) and a copy of your visa if you have a current Australian visa.

STEP 3
Submit your application to a USPP local representative or directly to USPP aniszcadmissions@studygroup.com

STEP 4
Your application will be reviewed for eligibility, and you will be notified in writing of the outcome.
