Welcome to our modern international high school in the exciting city of Sydney

Choosing a college where you will receive the support you need to develop your academic, English and personal skills is an important decision. For young international students who are at the start of their overseas study journey and who want to progress to university, Taylors High School is a great place to be.

We are a modern international high school with over 90 years’ experience in teaching and supporting students from all over the world. We can help you adapt to life in a new country, gain an internationally recognised High School qualification and become a well-rounded student who is ready to start university life. We offer expert teachers, a warm and friendly learning environment and modern facilities.

Taylors High School is located in Sydney, Australia’s largest and most exciting city. It’s a fantastic place to live and study. The college is very close to the central business district, major universities and world famous attractions.

Our college and this vibrant city offer you excellent opportunities to make friends, expand your learning and enjoy new experiences outside of the classroom. What a wonderful start to your life journey!

We can help you adapt to life in a new country, gain an internationally recognised High School qualification and become a well-rounded student who is ready to start university life.
Your journey to university success

Taylors College is expert in helping international students to successfully complete their HSC and gain the skills needed to secure a place at a university of their choice.

Year 10

- Study a minimum of 12 units
- Australian or overseas university

Year 11

- Study a minimum of 10 units
- Australian or overseas university

Year 12

- Study a minimum of 10 units
- Australian or overseas university

For more information on Academic English Preparation, see page 32.

YOur journey to university starts here

We help young international students like you to gain the academic qualifications, confidence and personal skills they need to enter university. Our High School program is comprised of Years 10, 11 and 12. Each year of the program offers a new level of personal and academic support. This ensures you are continually developing and feel well-prepared for each step of your journey.

A warm and supportive learning environment

Our students tell us that it’s easy to make friends here and that our teachers feel like family. With 90 years’ experience we know that students are successful in their studies when they learn in a supportive environment with friendly, well-qualified teachers. From day one, we will give you a high level of personal and academic support.

A globally recognised qualification

The Higher School Certificate (HSC) is recognised by universities and employers worldwide, providing a good range of options once you complete your studies. With an HSC, you can apply to multiple universities, and as an international student you will also be able to receive multiple offers. Many of our students have progressed to universities around the world, including Australia.

University-style learning environment

Our teaching style helps you to make a smooth transition from school to university, and to develop key study skills. Once you start university, you will already know how to participate and be able to perform at your best.

Our expert teachers

International students have different needs to those of local students, which is why our classes and timetables are specially designed for you. Many of our teachers have been supporting overseas students at Taylors for over 10 years, and know what every student needs on each step of their journey. Whether you want to talk about homesickness or academic questions, university applications or career advice, our expert teachers and experienced student support team will always be there for you.

You can read more about our teachers on page 22.

Tina from China, transferred from an Australian public high school. Now studying Year 12

“In the local school, teachers taught us at the same level as the Aussies, which was hard because of the language problems. At Taylors, teachers understand and take care of us more. They teach us one by one and explain words that we don’t understand. So it’s good for us.”

Sydney: a world-class city

Our city is one of the most inspiring places any student could learn in. You can be active all year round thanks to our sunny weather and fresh air. Whilst on class excursions to our museums, your perspectives will be broadened and our incredible restaurants will give you tastes from around the world.

Welcome to friendly and vibrant Sydney.

With a great mix of stunning natural sights like our world-famous beaches and parks, to the iconic Opera House and Harbour Bridge, Sydney has something for everyone to enjoy. Bask in the perfect lifestyle that Sydney has to offer.
Why should I choose the Taylors High School program?

Taylors High School is a modern international college for overseas students who want to gain their Higher School Certificate (HSC) and prepare for university. Over Years 10, 11 and 12 we’ll support and develop you at each stage of your journey.

Study skills that are valued by top universities and employers

A Taylors High School education will prepare you for success at any university around the world, and in any career that you wish to pursue. You will learn how to participate in group discussions, give presentations and improve your conversation and engagement skills. These are key attributes that employers look for in prospective employees.

The one-to-one support you need

As a Taylors High School student you will have weekly one-to-one tutorials with your teachers. During these sessions you can ask questions about your studies, gain additional support or discuss issues such as your university applications.

We make Sydney our classroom

To give you a well-rounded education we organise a wide range of extra-curricular activities. These include fun trips to zoos, museums, universities and historical sites.

Experts in educating international students

Our teachers are our greatest asset. We have a wonderful team of friendly and experienced teachers who are expert in working with international students. The majority of teachers have worked with us for many years. This provides a continuity of care for students and means that you will be taught by the same teachers throughout your time here.

Student progression

In 2014 100% of our HSC students received an offer from a tertiary institution. Some of our top performing students have gone on to study at Group of Eight universities in Australia as well as universities in the US and Germany.

Academic English Preparation (AEP)

If you need additional help to reach the level of English language proficiency required for the High School program, you can join our AEP program. The course helps you to make fast progress in speaking, writing, reading and listening. You will also learn research and study techniques needed for the High School program.

We have a wonderful team of friendly and experienced teachers who are expert in working with international students

Many of our teachers have professional experience including finance and business. They bring this experience into the classroom, showing how academic subjects can be applied in the real world.

“I think I’ve become more confident. The Australian school I attended was a small community with only local students. Here, I can meet a lot of friends from different countries and also some Australian friends too, so it’s great.”

DEREK FROM CHINA, TRANSFERRED FROM AN AUSTRALIAN PUBLIC HIGH SCHOOL, NOW STUDYING YEAR 12

“After I moved to Taylors High School I was able to dramatically increase my grades due to the supportive environment and friendly teachers.”

EMILY FROM AUSTRALIA, GRADUATED FROM TAYLORS HIGH SCHOOL IN 2014. NOW STUDYING A BACHELOR OF ARTS AT THE UNIVERSITY OF SYDNEY.
Meet our students

As a High School student, I always knew I wanted to progress to the University of Sydney. Taylors High School gave me the opportunity of attending university open days, events and even lectures there.

For as long as I can remember, I have always wanted to do a Pharmacy degree. In Year 12 however, I started to focus on other options, and the person who helped me most was my career adviser and English teacher at Taylors High School, Jennie Masia. She helped me to look at different degrees, different universities and different options.

The thing I admire the most about Taylors High School is the support I received from everyone at the school. I wouldn't have been able to achieve what I have achieved without that caring environment. When things got difficult back at home, in Syria, I reached out for support from counsellors and felt it made a great difference. When I approached my teachers for assistance, they never failed to help me.

I used to study at a local government high school. I transferred to Taylors College last year. I think the facilities, the environment and the resources here are much better than the local school. I feel more at home.

I was a little shy before enrolling at Taylors High School, but being in constant interaction with students from all around the world made me become much more outgoing.

Taylors College was recommended to my parents and me by an acquaintance and we instantly liked it, so we didn’t check out other schools. I like the friendly atmosphere here and the fact that the teachers are really close to the students.

When I was in Vietnam, I was a bit above average but not a top student. At Taylors I think I am quite different, because I understand the courses more. The classes are small, so the teacher can focus more on each student, so I think I have improved quite a lot since I was in Vietnam.

I am also a Year 12 Leader. Leaders are chosen by their classmates to represent them and their views at meetings. If they want to introduce changes, they can tell us and we will go and talk to teachers in the school and we will make something better. It’s a great feeling that people trust me.
“Year 10 is about hands-on learning through excursions, highly interactive classes that develop English language confidence, and a focus on organisational skills, time management and social development.”

MARIO TORRELLI, HEAD OF ENGLISH

The Taylors College Year 10 High School program is an important first step for young international students. We will help you adapt to life in a new country and provide a safe and caring learning environment. You will soon make new friends and begin the journey to HSC success.

Starting the Taylors College High School program in Year 10 will give you:
- a safe, secure and modern environment where you will soon feel at home
- opportunities to join clubs and make new friends
- a head start in your academic studies and English language practice
We’ve created a safe and nurturing environment for our Year 10 students. This ensures you receive the care and one-to-one support needed to settle in and feel confident about progressing to Years 11 and 12.

A warm welcome
Moving to a new country is a big step for young students. You will find that Taylors High School is a very friendly place full of teachers and students who understand what it feels like to take that big step, and can help you to settle in. Many students are nervous at first, but they soon feel at home in our safe and secure High School.

One-to-one support and guidance
Our Student Support Services and teaching staff work closely together to make sure you are happy and secure from day one. Our staff members have many years’ experience in working with international students. If you have any questions about your studies, your homestay or just need a friendly ear to listen, our staff are available to help you.

A strong foundation
By joining Taylors in Year 10, you will have the space and time to adapt to Australian life and a new learning environment. This means that when you start Year 11, you will understand how the college works and what is expected of you. More importantly, you will gain a strong academic foundation and feel confident about starting the next stage of your studies.

"If you start at Year 10 you know what’s going on and you know what’s going to happen in Year 11 and 12. You’ll be more prepared."

I was looking at other schools, and since I’m new to this environment I could see that there are many nationalities in this school so I thought that I would fit in better.

The teachers are really friendly. If you ask questions in class, they will explain things more slowly, and make it easier for you to understand. If you still don’t understand, you can come to them in tutorial time and they will help you.”

Improving your English language skills
Speaking English for a year will really increase your skills and confidence, and prepare you to better understand your HSC classes. Chatting to your host family, socialising with friends and studying in an English speaking environment will help improve your speaking, listening, reading and writing.

Making new friends
In local schools, friendship groups are often already established and some international students can feel isolated. At Taylors it’s easy to make friends because the majority of students are from overseas and there are many nationalities. To help, we organise orientation activities to help you to get to know the other students. We also offer a great range of clubs and activities where you can make new friends and have fun outside of the classroom.

At Taylors it’s easy to make friends because the majority of students are from overseas and in the same situation

Living with a friendly homestay
Year 10 students often live in a private home with an Australian family. All our homestay hosts are friendly and welcoming. They are experienced in providing a safe and secure living environment, and understand the level of support a young student from overseas needs when they first arrive here.

Safety is our number one priority. All our homestays are police checked and inspected before we place students there.

For more information on homestay accommodation, see page 24.
Year 11 study

“Year 11 focuses on interactive learning with an emphasis on reading and writing skills, assessment practice, and learning to think as an HSC student.”

MARIO TORRELLI, HEAD OF ENGLISH

During Year 11 students undertake a career development program. You will complete a series of workshops designed to help you identify skills and areas of interest that will guide your study and career goals.

Starting the Taylors College High School program in Year 11 will give you:

- a focus on academic learning
- daily one-to-one tutorials to support study
- personal development opportunities outside the classroom
The Higher School Certificate: Year 11 study

In Year 11 you will focus on the academic journey towards gaining the Higher School Certificate. The HSC is an internationally recognised qualification that can open doors to universities and rewarding careers all over the world.

Expert teachers
We have a team of dedicated and experienced teachers who understand the level of support that international students need to do well. At Taylors High School there is real equality and friendship between students and teachers. You will be encouraged to ask questions, participate in class and receive ongoing one-to-one support.

Teachers also bring their real-world professional experience into the classroom. This complements academic learning and helps you understand subjects from a new perspective.

Daily tutorials
To ensure you are happy and progressing well, we timetable daily one-to-one tutorials across each of your subjects. This provides you with the individual attention, support and encouragement you need to succeed.

University study skills
Throughout Year 11 you will start to develop the key study skills you will need in your future university studies. This includes undertaking research, giving presentations and learning independent study techniques.

Personal development
Participating in college activities outside of the classroom is an effective way to develop life skills such as teamwork, leadership and communication. It’s also a great way to meet students from other programs and make new friends.

For example, you could join Taylors Action Group (TAG), our voluntary student organisation. In TAG, you can become more involved in college life through fundraising and organising events. This includes organising Chinese New Year celebrations, college picnics and student welcome parties.

Exploring Sydney
Studying in the heart of Sydney provides further opportunities for you to learn outside the classroom. Activities such as museum trips offer cultural enrichment and a new way of learning. Our close proximity to the city’s central business district gives you easy access to Australia’s financial and business hub.

University of Sydney Foundation Program (USFP) option
For students who want to progress specifically to the University of Sydney, we offer an additional option on successful completion of Year 11. USFP is a pathway program that provides the academic foundation international students need to successfully progress into the University of Sydney, a top-ranking Australian university.

USFP students are taught on the same campus and by the same teachers as the High School Program. They also join Year 12 students on visits to the University of Sydney.

To be awarded the Higher School Certificate, students must complete both Year 11 and 12.

“IT IS VERY IMPORTANT THAT STUDENTS LEARN TO WORK WITH OTHERS. GROUP WORK TEACHES LEADERSHIP SKILLS, PATIENCE AND LISTENING.”
JENNIE MASIA, ENGLISH TEACHER, STUDENT ADVISER AND CAREERS ADVISER

University of Sydney Foundation Program

“IN MY COUNTRY, IF YOU HAVE COMPLETED YOUR STUDIES IN A GOOD COUNTRY SUCH AS AUSTRALIA YOU WILL HAVE GREAT JOB OPPORTUNITIES IN THE FUTURE. IN MY YEAR, THERE ARE AUSSIE STUDENTS SO I HAVE THE OPPORTUNITY TO LEARN THEIR CULTURE AND OF COURSE LEARN THEIR LANGUAGE AS WELL. IN THE FUTURE I WANT TO BE A DIPLOMAT SO IT’S GOOD TO CONNECT WITH ALL TYPES OF PEOPLE OF ALL NATIONALITIES. I LOVE THE LIFE HERE. I'M REALLY SATISFIED.”

ALI FROM AZERBAIJAN
PREVIOUSLY STUDIED YEAR 10. CURRENTLY STUDYING YEAR 11

16 - Taylors High School program
Year 11 study
The Higher School Certificate

Year 12 study

“Year 12 is all about interactive learning and building your assessment skills ready for the final HSC examination. We develop your organisational and time management abilities, as well as focusing on skills such as social interaction, personal confidence and respect.”

MARIO TORRELLI, HEAD OF ENGLISH

The Taylors College Year 12 High School program focuses on the future. You will complete your HSC studies, apply to university and explore your career options. You can only enter Year 12 if you have completed Year 11 at a New South Wales school.

Studying the Taylors College High School program in Year 12 will give you:
• a focus on independent learning
• tools and guidance to make successful university applications
• access to careers advisers and workshops
• opportunities for developing leadership skills through the Year 12 Leadership Program
The Higher School Certificate: Year 12 study

Year 12 is the final step of the High School program, focusing on independent learning and exam preparation. We will help you to apply to universities and explore employment opportunities.

Independent learning
In Year 12, you will continue to benefit from our university-style environment ensuring you are well prepared for your university studies. You will undertake independent learning assignments including research and project work.

Continued academic and personal support
Independent learning is an important feature of the final year, but you will continue to receive a high level of support and one-to-one attention from your teachers. You can also join dedicated study groups where you can collaborate with other students and concentrate on achieving the grades you need.

Facilities to support your studies
At Taylors High School we provide the technology and facilities to support independent senior learning, including:
• Dedicated study rooms
• English Learning Centre
• Computer Access Rooms
• Library
• Access to online study tools ClickView and StudySmart from home

University lectures and open days
University lecture days help you to find out about universities and decide where to apply. University representatives visit Taylors to talk about their courses and answer any questions. We also organise university visits where you can tour campuses, attend lectures and experience university life.

Support to apply to the university you choose
Unlike domestic High School students, international students can receive up to six university offers. As a Taylors College student, you can apply to multiple universities in Australia and around the world. With over 90 years’ experience, we understand what universities look for in candidates. We will guide you safely through each step of the university application process. From advising on university choices to completing application forms, we will ensure you have everything you need to succeed.

Career workshops
We offer a range of career activities to help you build skills needed for employment, gain experience and explore career options. These include volunteering opportunities, learning how to write a résumé and practising interview techniques. We also advise on local career opportunities.

“"In China, every day I was studying from 7 o’clock until 10 o’clock at night. When I came here I relaxed a lot. I can decide how to study. When I relax I can actually read more information. I’m more confident and I’ve got more friends here. They’re from different countries and all of us actually have the same experience. The teachers not only care about your studying, they also care about your life in Sydney.

After Year 12 I want to study Medical Science and probably go to the University of Sydney or the University of New South Wales.””

Yilin from China
Previously studied AEP Year 10 and Year 11, currently studying Year 12.

High School students can apply to multiple universities in Australia and around the world. With over 90 years’ experience, we understand what universities look for in candidates.
Meet our teachers

I started teaching in 1985 and began working at Taylors College in 2000. Classes here are structured to cater to the needs of international students and are designed to academically prepare them for further study.

ESL (English as a Second Language) is predominant, and our teachers are experts in this area. At Taylors, students are given more responsibility for learning and as a result develop better independent learning skills.

Taylors College provides quality, opportunity, understanding, trust and respect together with a high standard of academic learning.

International students have a need to be supported on their first journey in a new country, a new culture and a language that they want to master. I enjoy being an important part of this journey for them.

I have been a teacher for over 20 years, and have worked in a diverse range of schools. My role includes teaching English, running the Study Skills program and assisting students in making informed university choices.

I encourage discussion and questioning in class and often use personal experiences to help explain concepts.

As Dean of the High School I have the responsibility of making sure that all the students successfully complete the Higher School Certificate (HSC) and progress onto their chosen course at the university they have selected.

It is my responsibility to ensure that students elect courses that suit their interests, needs and talents. In addition, I am also responsible for ensuring that all students progress successfully through Years 10, 11 and 12, during which time they become mature young men and women, ready to face the challenges that the world has to offer them.

The environment of Taylors is very different from that of other schools; it is more of a university environment. The students design their own study program by electing subjects they enjoy and excel in. We can even accommodate students who wish to study their native language as part of the HSC.

The benefits of studying High School at Taylors College in Sydney are that students are exposed to a variety of cultures, are taught by very committed teachers and they are encouraged to achieve their goals.

Also, Sydney is the best city in the world!

I have worked at Taylors College for 14 years. I help students to prepare for their futures by teaching them English skills, study skills and time management skills. More importantly, I encourage them to work hard, be optimistic and confident.

My teaching style is firm and fair. I believe students need boundaries and they also want to be heard.

I particularly enjoy teaching international students because it is incredibly rewarding to see how far they come academically and personally in the short time they are with us.

I particularly enjoy teaching international students because it is incredibly rewarding to see how far they come academically and personally in the short time they are with us.

The environment of Taylors is very different from that of other schools; it is more of a university environment. The students design their own study program by electing subjects they enjoy and excel in. We can even accommodate students who wish to study their native language as part of the HSC.

I am proud of the fact that we have had very successful HSC results. Our students have attained the highest scores in NSW in subjects such as English as a Second Language, Mathematics and in Chinese Background Speakers.

My advice to parents or students considering Taylors College is to seize this opportunity; it will be one of the best decisions you make.

Where will I live?

Taylors High School offers a wide range of comfortable accommodation to international students. This ranges from safe and secure homestays with Australian families to more independent student residence accommodation, apartments and houses.

Student residences (for students aged 18+)

Student residences are the perfect option for students who want independent living combined with the safety and security of a supervised environment. Our student residences are close to the college, providing comfortable, furnished student apartments. Each apartment has a private bathroom and kitchenette. To ensure safety and security the residences have live-in residential supervisors and swipe key access.

UniLodge

UniLodge offers furnished apartment-style living in a choice of city locations. Each building has communal areas in which you can cook and socialise with friends. Central Park is the newest location, and is close to a shopping centre, green spaces and transport links.

Urbanest

Experience ultra-modern furnished accommodation in the heart of Sydney at Urbanest. Located in Haymarket, Urbanest is a short walk from Central railway station and within easy reach of Taylors College and Sydney’s sights.

Homestay (compulsory for students aged under 17)

Living in homestay accommodation is a wonderful opportunity to experience Australian culture, live in a friendly and safe home environment and still enjoy your independence. Spending time with a host family is also a great way to get to know local people and practise your English. All our homestay families are friendly and welcoming, and experienced in looking after international students. They are also police checked and inspected by us before students are placed there.

Independent accommodation (17+)

If you are over 18 and prefer to live in a house or apartment, our staff can help you find rental or other accommodation close to our campus.

Living costs in Sydney

Accommodation

- Homestay: $385pp per week
- Rental: $200-$350pp per week

Other living costs

- Cappuccino: $3.80
- Bottle of water: $2.80

- Basic utilities for an apartment (electricity, heating, water, etc.): $210 per month
- Internet: $65 per month

Please note that all costs are estimated averages only and are subject to change without notice. Sources: www.numbeo.com/cost-of-living, www.transportnsw.info/tickets/multi-travel. For more information, please visit studyinaustralia.gov.au/global/live-in-australia/living-costs.
Where will I study?

Taylors is a modern international college with an established reputation for preparing overseas students for university. We have the experience, facilities and knowledge to support you at every step of your journey towards a successful future.

Preparing for university

There’s a big difference between school and university. The High School program prepares you for university life by providing much more than academic learning. You will also develop soft skills including communication, independent thinking and teamwork. When you graduate from Taylors, you will be prepared for university and future employment.

A modern, purpose-built campus

Our modern campus is purpose-built and provides all the facilities you need to learn effectively in class, and independently. There are well-equipped laboratories for science students, computer rooms, study rooms, art and design studios and a library fitted with modern technology and digital resources. This learning environment will enable you to progress steadily throughout Years 10, 11 and 12.

A well-rounded education

We believe that students do well in their studies and grow in confidence when they participate in activities outside of the classroom. We provide a wide range of activities to develop social and personal skills including sports clubs, cultural trips, social clubs and regular college events. We encourage you to join in, ensuring you receive a well-rounded education that develops your interests.

Community spirit

Students tell us that they value the warm and friendly community spirit at Taylors High School. You will be supported by an established team of experienced teachers and Student Support Services staff. You will feel very much at home here, and make friends that will last a lifetime.

Taylors is a modern international college with an established reputation for preparing overseas students for university. We have the experience, facilities and knowledge to support you at every step of your journey towards a successful future.
Help and support

Support and care from day one
Our teaching and support staff have many years’ experience of working with international students. They understand that students have different needs and cultural expectations. Everyone works together to help you to transition smoothly into your new environment. We organise an orientation program where you can make new friends and find your way around.

Student wellbeing
If you need someone to talk to or have any personal or academic concerns, our Student Support Services team is available to help. On-campus support includes first-aid officers, a health centre and a 24-hour emergency telephone number.

If you are under 18, a Taylors’ caregiver will liaise between your parents and the school. They will provide regular updates on your academic progress, if you need someone to talk to or have any personal or academic concerns.

Study support
To ensure you make good progress in your studies, our teachers offer free, personalised tuition. One-to-one tutorials are timetabled each week of the school year in all subject areas.

University and careers advice
With 90 years’ experience, we are experts in helping international students achieve their goals. We will coach you through the university application process, helping you complete application forms and advise on university entrance requirements. Our careers office provides a comprehensive range of careers activities to explore career options and improve skills needed for employment.

“I take any problem that a student is facing very seriously. If a student has an academic problem, I encourage them to see me during their free time or attend my tutorial so I can help them. If it’s a personal problem, I listen very carefully and then decide if any action needs to be taken.”

JENNIE MASIA, ENGLISH TEACHER, STUDENT ADVISER AND CAREER ADVISER

Joining Taylors High School may be your first time living away from home in a new country. We have dedicated teams of friendly and caring support, welfare and teaching staff to help you settle into college life.

For further information, including course descriptions, hours of study and HSC graduation requirements visit taylorscollege.edu.au/courses/high-school

Completion of Year 10 at Taylors College Sydney does not lead to the award of the NSW Record of School Achievement (RoSA). It is an ideal preparation for study in Years 11 and 12 which leads to the NSW Higher School Certificate.

Vietnamese, Korean, Russian, Arabic and other community languages may be studied at Saturday Schools for no extra charge.

Year 11 subject selection may be limited in all intakes; subject offerings are determined by student demand.

Year 11 students may access other subjects through Sydney Distance Education High School or The Open High School. An additional fee to the Department of Education is charged for these subjects.

Year 12 in NSW starts in October and concludes in November the following year.

For further information, including course descriptions, hours of study and HSC graduation requirements visit taylorscollege.edu.au/courses/high-school

Course subject descriptions

Year 10

Year 10 introduces study courses from Key Learning Areas. These are: English, Mathematics, Science, HSC (Human Society and Its Environment), Languages, TAS (Theoretical and Applied Studies), in Assessment the Year 10 Program is based on scheduled, day examinations and a variety of off-site assessment tasks prepared by Taylors College’s Assessment Program. Students study a selection from the following subjects in Year 10 at Taylors College High School.

Year 10 English

The English curriculum is built around the three interrelated strands of Language, Literature and Literacy. Together the strands focus on developing students’ knowledge, understanding and skills in listening, reading, viewing, speaking, writing and creating.

Year 10 Mathematics

Main topics covered:

• Algebra and equations
• Measurement
• Data Representation and Analysis
• Probability
• Functions

Year 10 Science

Main topics covered:

• Issues and Energy
• Body Systems
• Acids and Bases
• Motion and Newton’s Laws
• CHAL, Genes and Evolution
• Periodic Table, Atomic Structure and Reactions
• Lifespan and Global Systems

Year 10 History

Overview of the modern world and Australia

• The inter-war years between World War I and World War II
• First world war
• The major movements for rights and freedom
• Cold War and Australia’s involvement

Depth study – there are three depth studies for this national period

• Colonialism (1788-1851)
• Rights and freedom
• The globe: challenging the centre

Year 10 Geography

Year 10 Geography explores two main issues in Australia and the rest of the world

• Globalisation or change in cities
• Australia and neighbouring countries

Languages - Year 10 Japanese

Main topics covered:

• Personal World: Greeting, Personal Information
• School: A School Subject: TimeTable and School Year
• Lifestyle: Family member, Nationally or country or language
• Routine: Days of the week, Telling the time
• Time: Time and day and how, less and before

Year 10 Information and Software Technology

Information and Software Technology is a practical digital media course.

Main topics covered:

• Learning to Design a Database
• Learn to develop a Digital Media campaign
• Learn about the Internet and websites development

Extra-curricular and Co-curricular Activities

To further enhance our academic courses already mentioned, Year 10 students participate in a variety of other activities during the school week. There include:

• Timetabled Sport and other recreational activities
• Pastoral Care and Personal Development Program
• Clubs: students choose from a variety of social activities designed to enhance their communication skills
• Excursions to supplement their learning experiences in the classroom and to connect with the English speaking community

Year 11 and Year 12 (Preliminary and HSC Courses)

In Year 11 at Taylors College, students select subjects that they will study over two years in Year 11 and Year 12. English is the compulsory subject. Year 11 students need to study six subjects and Year 12 students may choose six subjects.

The five subjects of the Year 12 year must have been studied in Year 11. Preliminary courses are the prerequisite courses for the HSC courses.

English as a Second Language (ESL)

The course is designed for students from diverse non-English speaking backgrounds as determined by the course entry requirements. The students engage in a variety of oral language learning experiences to develop and consolidate their written, understanding and appreciation of English, so as to enhance their personal, social and vocational lives.

Year 11 ESL, Preliminary and HSC Courses

Main topics covered:

• Language study within area of study
• Essay

Year 12 ESL (HSC) Course

The course is designed to prepare students for study in tertiary and vocational education. The course will assist students to use and apply the language for a variety of purposes, including social, academic and vocational purposes.

Main topics covered:

• English Study Area
• Language and Cultural Knowledge
• Writing and Speaking

Year 11 Mathematics

Main topics covered:

• Number and Algebra
• Measurement and Geometry
• Statistics and Probability

Year 12 Mathematics Advanced

Main topics covered:

• Number and Algebra
• Functions and graphs
• Calculus
• Exponential and Logarithms
• Mechanics

Year 12 Mathematics Extension 1

Main topics covered:

• Combinatorics
• Polynomials
• Integration
• Trigonometric functions
• Exponential and Logarithms
• Further calculus

Year 12 History HSC Courses

Main topics covered:

• Global History
• Current Issues
• Australia: Past and Present

Year 12 Chemistry HSC Courses

Main topics covered:

• Production of Materials
• The Atom and Elements
• Chemical Monitoring and Management

Year 12 Physics HSC Course

Main topics covered:

• Space
• Motors and Generators
• From Source to Implementation

Year 12 Mathematics Preliminary Course

Main topics covered:

• Number and Algebra
• Functions and graphs
• Calculus
• Exponential and Logarithms

Year 12 Mathematics Extension 1

Main topics covered:

• Combinatorics
• Polynomials
• Integration
• Trigonometric functions
• Exponential and Logarithms
• Further calculus

Year 12 English Advanced Preliminary Course

Main topics covered:

• Content common to the Standard and Advanced courses
• Essays

Year 12 English Advanced HSC Course

Main topics covered:

• Area OF STUDY
• Module A: Comprehension of Texts and Context
• Module B: Critical Study of Texts
• Module C: Representation and Text

Year 12 English Advanced Preliminary Course

Main topics covered:

• Content common to the Standard and Advanced courses
• Essays

Year 12 English Advanced HSC Course

Main topics covered:

• Area OF STUDY
• Module A: Comprehension of Texts and Context
• Module B: Critical Study of Texts
• Module C: Representation and Text

Year 12 Biology HSC Course

Main topics covered:

• A Local Ecosystem
• The Chemistry of Art
• Economic Policies and Management
• The Cosmic Engine
• The Search for Better Health

Year 12 History HSC Courses

Main topics covered:

• Global History
• Current Issues
• Australia: Past and Present

Year 12 Mathematics Extension 1 (3 units)

Main topics covered:

• Single variable motion andProjectile motion
• Inverse functions andInverse trigonometric functions
• Binomial expansion
• Further probability
• Further applications of HSC 2 unit topics

Year 12 Mathematics Extension 2 HSC Course

Main topics covered:

• The course content includes theorems 2-3 Mathematics courses
• Trig
• Complex Numbers
• Core
• Integration
• Volumes
• Matrices
• Functions
• Further applications of HSC 2 unit topics

Year 12 Mathematics Extension 1 (Units 3-4)

Main topics covered:

• Polynomials
• Further trigonometry
• The Chemistry of Art
• Economic Policies and Management
• The Cosmic Engine

Year 12 Business Studies Preliminary Course

Main topics covered:

• Finance
• Business planning
• Business organisation

Year 12 Business Studies HSC Course

Main topics covered:

• Economics
• Marketing
• Finance
• Business organisation

Year 12 Business Studies Preliminary Course

Main topics covered:

• Finance
• Business planning
• Business organisation

Year 12 Business Studies HSC Course

Main topics covered:

• Economics
• Marketing
• Finance
• Business organisation

Year 12 Mathematics Extension 2 (3 units)

Main topics covered:

• Single variable motion andProjectile motion
• Inverse functions andInverse trigonometric functions
• Binomial expansion
• Further probability
• Further applications of HSC 2 unit topics

Year 12 Physics Preliminary Course

Main topics covered:

• The Search for Better Health
• Quantum to Quarks or Astrophysics
• Economic Policies and Management
• The Cosmic Engine
• The Search for Better Health

Year 12 English Advanced Preliminary Course

Main topics covered:

• Essays
• Essay
• Essay
• Essay
• Essay
• Essay

Year 12 Mathematics Extension 2 (Units 3-4)

Main topics covered:

• Polynomials
• Further trigonometry
• The Chemistry of Art
• Economic Policies and Management
• The Cosmic Engine

Year 12 Biology HSC Course

Main topics covered:

• A Local Ecosystem
• The Chemistry of Art
• Economic Policies and Management
• The Cosmic Engine
• The Search for Better Health

Year 12 Mathematics Extension 1 (Units 3-4)

Main topics covered:

• Polynomials
• Further trigonometry
• The Chemistry of Art
• Economic Policies and Management
• The Cosmic Engine

Year 12 Business Studies Preliminary Course

Main topics covered:

• Finance
• Business planning
• Business organisation

Year 12 Business Studies HSC Course

Main topics covered:

• Economics
• Marketing
• Finance
• Business organisation

Year 12 Mathematics Extension 2 (3 units)

Main topics covered:

• Single variable motion andProjectile motion
• Inverse functions andInverse trigonometric functions
• Binomial expansion
• Further probability
• Further applications of HSC 2 unit topics

Year 12 Physics Preliminary Course

Main topics covered:

• The Search for Better Health
• Quantum to Quarks or Astrophysics
• Economic Policies and Management
• The Cosmic Engine
• The Search for Better Health

Year 12 English Advanced Preliminary Course

Main topics covered:

• Essays
• Essay
• Essay
• Essay
• Essay
• Essay

Year 12 Mathematics Extension 2 (Units 3-4)

Main topics covered:

• Polynomials
• Further trigonometry
• The Chemistry of Art
• Economic Policies and Management
• The Cosmic Engine

Year 12 Biology HSC Course

Main topics covered:

• A Local Ecosystem
• The Chemistry of Art
• Economic Policies and Management
• The Cosmic Engine
• The Search for Better Health

[30] Taylors High School program

Course subject descriptions

taylorscollege.edu.au 31
Academic English Preparation (AEP)

If you need additional support in reaching the required level of English language proficiency to join the High School program, AEP can help.

AEP at a glance
AEP will enable you to make fast, effective progress in speaking, writing, reading and listening. The program also includes:

- Study skills for academic learning including exam techniques, critical analysis, note-taking and text scanning skills
- A personal study plan and appropriate course level to ensure you make fast progress
- One-to-one attention in a class with a maximum of 18 students
- Regular assessment including tests and written reports

AEP takes place on campus and the program includes 23 hours in class per week. When you successfully complete AEP you can progress to the High School program without taking an IELTS test.

Direct entry into Year 12 is only available to students who have completed the Year 11 Preliminary or HSC course.

Key Facts

- Minimum age: 15
- Maximum class size: 18
- Minimum entry requirements: 4.0 overall with no band less than 3.5
- Start dates: AEP intakes are every five weeks
- Term length: 10-week terms throughout the year
- Areas of study: Emphasis on English language for academic study, with practice in note-taking, assignment writing and general study skills
- Additional skills: Develops intensive reading and listening skills and improves social language skills
- Reports: Provided to students twice a term
- Teachers: The AEP teaching staff are highly qualified and experienced professionals in the English as a Second Language (ESL) field
How to apply

To apply direct (students)
Visit taylorscollege.edu.au/apply
or
Complete the application form and return it to the Admissions Centre at the address below, along with the supporting documents outlined in step two:
Admissions Centre, Level 24, 201 Elizabeth Street, Sydney, NSW 2000, Australia
Email: tcadmissions@studygroup.com

To apply through an agent
Complete the application form and return it to your local representative along with the supporting documents outlined in step two.
For a list of Taylors authorised representatives in your country, please visit taylorscollege.edu.au/about/agent

STEP 1
Complete all sections of the International Application for Admission form

STEP 2
Attach the following documents:
• Verified copies of your academic qualifications (translated into English);
• Evidence of English language proficiency;
• A copy of your passport and visa (if you have a current Australian visa)

STEP 3
Submit your application to a College local representative or directly to the Admissions Centre tcadmissions@studygroup.com

STEP 4
Your application will be reviewed for eligibility, and you will be notified in writing of the outcome.

Caregiver arrangements

If you are under 18 years of age, do you require the College to recommend a Caregiver? Yes [ ] No [ ]

If Yes, please advise the name and address in Australia of your Caregiver.

- Caregivers name
- Caregivers address in Australia

Accommodation

Do you require assistance with accommodation? Yes [ ] No [ ]

If Yes, please provide details below.

- Length of stay (weeks)
- Accommodation start date (dd/mm/yyyy)

Airport transfer

Do you require airport transfer? Yes [ ] No [ ]

If yes, flight details including date, time and flight number should be sent to the Admissions Centre as soon as possible to arrange the airport collection.

OSHC details (if applicable)

Do you currently hold an OSHC policy? Yes [ ] No [ ]

If Yes, please provide details below.

- Name of OSHC provider
- OSHC membership number
- OSHC expiry date

For your convenience, OSHC will be included automatically on your invoice unless you provide us with details of your alternative policy.

Disability

Do you have a disability, impairment or long term medical condition which may affect your studies? Yes [ ] No [ ]

If yes please indicate the areas of impairment:

- Acquired brain impairment
- Hearing/C Deaf
- Intellectual
- Learning
- Physical
- Medical condition
- Mental illness
- Mobility
- Vision

If you have a disability, would you like to receive advice on support services, equipment and facilities which may assist you? Yes [ ] No [ ]

Declaration and signature

I wish to be considered for admission to the course(s) I have shown on this application form. I agree that where I do not meet the entry requirements for the selected course or suite of courses that I will be offered an alternative Study Group course. I declare that to the best of my knowledge the information supplied within this application and the documentation supporting it is correct and complete. I acknowledge that the provision of false or misleading information may result in non-acceptance of the application or immediate exclusion from Taylors College. I authorise Taylors College, where necessary, to obtain from any other education institution evidence of my academic records or seek other corroborating evidence with respect to my application. I acknowledge that Taylors College is subject to Section 13 of the ESOS Act 2000, to inform the Department of Immigration and Border Protection about changes to my course enrolment and any breach of my student visa conditions relating to satisfactory academic performance. I also understand that under the provisions of the ESOS Act 2000, Taylors College may release information provided in this application to Australian Commonwealth and State agencies.

By signing this application I acknowledge that I have read the Privacy Policy and consent to the use and disclosure of my personal information as set out in the Privacy Policy.
