Taylors High School Program 2017
Years 10, 11 and 12
taylorscollege.edu.au
Welcome to our modern international high school in the exciting city of Sydney

Choosing a college where you will receive the support you need to develop your academic, English and personal skills is an important decision. For young international students who are at the start of their overseas study journey and who want to progress to university, Taylors High School is a great place to be. We are a modern international high school with over 90 years’ experience in teaching and supporting students from all over the world. We can help you adapt to life in a new country, gain an internationally recognised High School qualification and become a well-rounded student who is ready to start university life. We offer expert teachers, a warm and friendly learning environment and modern facilities.

Taylors High School is located in Sydney, Australia’s largest and most exciting city. It’s a fantastic place to live and study. The college is very close to the central business district, major universities and world famous attractions. Our college and this vibrant city offer you excellent opportunities to make friends, expand your learning and enjoy new experiences outside of the classroom. What a wonderful start to your life journey!

”We can help you adapt to life in a new country, gain an internationally recognised High School qualification and become a well-rounded student who is ready to start university life.”

Chris Norton
Taylors College Principal, Sydney

Your journey to success

Taylors College is expert in helping international students to successfully complete their Higher School Certificate (HSC) and gain the skills needed to secure a place at a university of their choice.

Your journey to university starts here
We help young international students like you to gain the academic qualifications, confidence and personal skills they need to enter university. Our High School program is comprised of Years 10, 11 and 12. Each year of the program offers a new level of personal and academic support. This ensures you are continually developing and feel well-prepared for each step of your journey.

A warm and supportive learning environment
Our students tell us that it’s easy to make friends here and that our teachers feel like family. With 90 years’ experience we know that students are successful in their studies when they learn in a supportive environment with friendly, well-qualified teachers. From day one, we will give you a high level of personal and academic support.

A globally recognised qualification
The Higher School Certificate (HSC) is recognised by universities and employers worldwide, providing a good range of options once you complete your studies. With an HSC, you can apply to multiple universities, and as an international student you will also be able to receive multiple offers. Many of our students have progressed to universities around the world, including Australia.

University-style learning environment
Our teaching style helps you to make a smooth transition from school to university, and to develop key study skills. Once you start university, you will already know how to participate and be able to perform at your best.

Our expert teachers
International students have different needs to those of local students, which is why our classes and timetables are specially designed for you. Many of our teachers have been supporting overseas students at Taylors for over ten years, and know what every student needs on each step of their journey. Whether you want to talk about homesickness or academic questions, university applications or career advice, our expert teachers and experienced student support team will always be there for you.

You can read more about our teachers on page 22.

FOR MORE INFORMATION ON ACADEMIC ENGLISH PREPARATION, SEE PAGE 28.

FACULTY DESTINATIONS (university offers as at December 2015)

- Engineering: 28%
- Medicine, Health Sciences and Science: 27%
- Arts/Education/Social Sciences: 39%
- IT: 6%

“In the local school, teachers taught us at the same level as the Aussies, which was hard because of the language problems. At Taylors, teachers understand and take care of us more. They teach us one by one and explain words that we don’t understand. So it’s good for us.”

TINA FROM CHINA, TRANSFERRED FROM AN AUSTRALIAN PUBLIC HIGH SCHOOL, COMPLETED YEAR 12 (HSC) IN 2015, NOW STUDYING A BACHELOR OF CONSTRUCTION MANAGEMENT AT BOND UNIVERSITY.
Sydney: a world-class city

Our city is one of the most inspiring places any student could learn in. You can be active all year round thanks to our sunny weather and fresh air. Whilst on class excursions to our museums, your perspectives will be broadened and our incredible restaurants will give you tastes from around the world.

Welcome to friendly and vibrant Sydney.

Sydney Harbour Bridge
Sydney Opera House
Bondi Beach
Café culture
Sydney facts
• Voted most popular city in the world for international university students (2014 Global Cities Index, A.T. Kearney)
• Population: 4.6 million
• Australia’s oldest and largest city
• Rated as one of the top cities in the world to live in (The Economist Intelligence Unit’s (EIU) Global Liveability Report – ranked 7, The Monocle 2015 Quality of Life Survey - ranked 5)
• Home to the world famous Sydney Opera House and the Sydney Harbour Bridge
• The economic hub of Australia

Explore our famous sites
Get ready to make your friends jealous! The Opera House and Harbour Bridge are two of the most famous landmarks in the world, and make great photos to share with friends and family back home. Close by you’ll find the Botanic Gardens and The Australian Museum which will bring to life the science and history you learn about in class.

Sydney is a world-famous shopping destination too. You can explore the best of Australian and global brands in Pitt Street Mall, which is a short bus or train journey from the college.

Try food from around the world
Sydney is a very multicultural city so you will find every type of cuisine here. Chinatown is a good place to eat food from around Asia. Nearby, Darling Harbour has popular bakeries, ice cream parlours and restaurants with views over the water. Taylors College is close to some great places to eat too. You can take a short walk to Danks Street on your lunch break and try delicious food in the cool cafés there.

Relax on our beaches
There are many beaches to choose from in Sydney, and each has its own atmosphere. Some offer sports such as volleyball and surfing. Others have great BBQ facilities. You’ll be spoilt for choice at the weekends!

Feel at home in our friendly city
Sydney is already home to people from all around the world, so you will be sure of a warm welcome here. Australians are famously friendly so you’ll have plenty of opportunity to talk with people you meet around the city.

Close to Asia
Sydney’s location makes trips to Asian countries easy and convenient. This is particularly useful for Asian students who may want to return home during the holidays.

With a great mix of stunning natural sights like our world-famous beaches and parks, to the iconic Opera House and Harbour Bridge, Sydney has something for everyone to enjoy. Bask in the perfect lifestyle that Sydney has to offer.
Why should I choose the Taylors High School program?

Taylors High School is a modern international college for overseas students who want to gain their Higher School Certificate (HSC) and prepare for university. During Years 10, 11 and 12 we’ll support and develop you at each stage of your journey.

Study skills that are valued by top universities and employers
A Taylors High School education will prepare you for success at any university around the world, and in any career that you wish to pursue. You will learn how to participate in group discussions, give presentations and improve your conversation and engagement skills. These are key attributes that employers look for in prospective employees.

The one-to-one support you need
As a Taylors High School student you will have weekly one-to-one tutorials with your teachers. During these sessions you can ask questions about your studies, gain additional support or discuss issues such as your university applications.

We make Sydney our classroom
To give you a well-rounded education we organise a wide range of extra-curricular activities. These include fun trips to zoos, museums, universities and historical sites.

Experts in educating international students
Our teachers are our greatest asset. We have a wonderful team of friendly and experienced teachers who are expert in working with international students. The majority of teachers have worked with us for many years. This provides a continuity of care for students and means that you will be taught by the same teachers throughout your time here.

We have a wonderful team of friendly and experienced teachers who are expert in working with international students.

Many of our teachers have professional experience including finance and business. They bring this experience into the classroom, showing how academic subjects can be applied in the real world.

Student progression
In 2015, 100% of our HSC students received an offer from a tertiary institution. Some of our top performing students have gone on to study at Group of Eight universities in Australia as well as universities in the US and Germany.

Academic English Preparation (AEP)
If you need additional help to reach the level of English language proficiency required for the High School program, you can join our AEP program. The course helps you to make fast progress in speaking, writing, reading and listening. You will also learn research and study techniques needed for the High School program.

"I think I’ve become more confident. The Australian school I attended was a small community with only local students. Here, I can meet a lot of friends from different countries and also some Australian friends too, so it’s great."
DEREK FROM CHINA, TRANSFERRED FROM AN AUSTRALIAN PUBLIC SCHOOL, COMPLETED YEAR 12 (HSC) IN 2015. NOW STUDYING AUDIO (STUDIO PRODUCTION) AT THE SAE CREATIVE MEDIA INSTITUTE.

"After I moved to Taylors High School I was able to dramatically increase my grades due to the supportive environment and friendly teachers."
EMILY FROM AUSTRALIA, GRADUATED FROM TAYLORS HIGH SCHOOL IN 2014. NOW STUDYING A BACHELOR OF ARTS AT THE UNIVERSITY OF SYDNEY.
Meet our students

We have many support services available, such as a Year Advisor. She will talk to us regularly throughout the term, and make sure everyone is feeling alright. At the beginning of the year, I was feeling homesick and I spoke to her about it. “You can come to me anytime if you feel homesick, I'm here to help.” It is normal to miss home sometimes, but it’s helpful when you have someone to talk to, it makes you less lonely.

The teachers are also very helpful, they want students to ask questions and they tell me to be confident.

Sydney is a very busy city but I like it as I never feel lonely or bored in this environment. At the same time, it also has quiet places, which are very comfortable to study.

I used to study at a local government high school. I transferred to Taylors College last year. I think the facilities, the environment and the resources here are much better than the local school. I feel more at home.

In my country, if you have completed your studies in a good country such as Australia you will have great job opportunities in the future.

In my year, there are Aussie students so I have the opportunity to learn their culture and of course learn their language as well. In the future I want to be a diplomat so it’s good to connect with all types of people of all nationalities. I love the life here. I’m really satisfied.

I used to study at a local government high school. I transferred to Taylors College last year. I think the facilities, the environment and the resources here are much better than the local school. I feel more at home.

After my HSC I’m thinking about going to the Sydney Conservatorium of Music because I want to study music in the future. Music is the thing that I always love. My music teacher at Taylors is very friendly and very professional too.

Taylors has helped me in many different ways. They provide a lot of useful information, not only from textbooks, but also in regards to the criteria of the exams and several useful tips to help us study.
Year 10 study

“Year 10 is about hands-on learning through excursions, highly interactive classes that develop English language confidence, and a focus on organisational skills, time management and social development.”

MARIO TORRELLI, HEAD OF ENGLISH

The Taylors College Year 10 High School program is an important first step for young international students. We will help you adapt to life in a new country and provide a safe and caring learning environment. You will soon make new friends and begin the journey to Higher School Certificate success.

Starting the Taylors College High School program in Year 10 will give you:

• a safe, secure and modern environment where you will soon feel at home
• opportunities to join clubs and make new friends
• a head start in your academic studies and English language practice
We’ve created a safe and nurturing environment for our Year 10 students. This ensures you receive the care and one-to-one support needed to settle in and feel confident about progressing to Years 11 and 12.

A warm welcome
Moving to a new country is a big step for young students. You will find that Taylors High School is a very friendly place full of teachers and students who understand what it feels like to take that big step, and can help you to settle in. Many students are nervous at first, but they soon feel at home in our safe and secure High School.

One-to-one support and guidance
Our Student Support Services and teaching staff work closely together to make sure you are happy and secure from day one. Our staff members have many years’ experience in working with international students. If you have any questions about your studies, your homestay or just need a friendly ear to listen, our staff are available to help you.

A strong foundation
By joining Taylors in Year 10, you will have the space and time to adapt to Australian life and a new learning environment. This means that when you start Year 11, you will understand how the college works and what is expected of you. More importantly, you will gain a strong academic foundation and feel confident about starting the next stage of your studies.

“Taylors High School has been a great choice of school for me. It has a high standard of education and support which are personal priorities of mine.

People in Taylors High School are super friendly and warm. I have made good friends, close friends and even true friends. The teachers are really passionate in teaching and make the class have a good vibe. Especially, the Dean and Year Advisor ensure all aspects of my daily life are overseen with care. Thus, Taylors is more like a family for me.”

Tommy from Indonesia
Previously studied Year 10, currently studying Year 11.

Improving your English language skills
Speaking English for a year will really increase your skills and confidence, and prepare you to better understand your HSC classes. Chatting to your host family, socialising with friends and studying in an English-speaking environment will help improve your speaking, listening, reading and writing.

Making new friends
In local schools, friendship groups are often already established and some international students can feel isolated. At Taylors it’s easy to make friends because the majority of students are from overseas and in the same situation. To help we organise orientation activities to help you to get to know the other students. We also offer a great range of clubs and activities where you can make new friends and have fun outside of the classroom.

At Taylors it’s easy to make friends because the majority of students are from overseas and in the same situation.

Living with a friendly homestay
Year 10 students often live in a private home with an Australian family. All our homestay hosts are friendly and welcoming. They are experienced in providing a safe and secure living environment, and understand the level of support a young student from overseas needs when they first arrive here.

Safety is our number one priority. All our homestays are police checked and inspected before we place students there.

In Year 10, students also participate in a range of sporting activities. Clubs and sports run alternate Wednesdays, with activities including soccer, basketball, badminton, ten-pin bowling, cycling, laser tag and rock climbing.

In Year 10, students also participate in a range of sporting activities. Clubs and sports run alternate Wednesdays, with activities including soccer, basketball, badminton, ten-pin bowling, cycling, laser tag and rock climbing.

For more information on homestay accommodation, see page 24.

Year 11 study

“Year 11 focuses on interactive learning with an emphasis on reading and writing skills, assessment practice, and learning to think as an HSC student.”

MARIO TORRELLI, HEAD OF ENGLISH

During Year 11 students undertake a career development program. You will complete a series of workshops designed to help you identify skills and areas of interest that will guide your study and career goals.

Starting the Taylors College High School program in Year 11 will give you:
• a focus on academic learning
• daily one-to-one tutorials to support study
• personal development opportunities outside the classroom
In Year 11 you will focus on the academic journey towards gaining the Higher School Certificate. The HSC is an internationally recognised qualification that can open doors to universities and rewarding careers all over the world.

**Expert teachers**
We have a team of dedicated and experienced teachers who understand the level of support that international students need to do well. At Taylors High School there is real equality and friendship between students and teachers. You will be encouraged to ask questions, participate in class and receive ongoing one-to-one support.

Teachers also bring their real-world professional experience into the classroom. This complements academic learning and helps you understand subjects from a new perspective.

**Daily tutorials**
To ensure you are happy and progressing well, we timetable daily one-to-one tutorials across each of your subjects. This provides you with the individual attention, support and encouragement you need to succeed.

**University study skills**
Throughout Year 11 you will start to develop the key study skills you will need in your future university studies. This includes undertaking research, giving presentations and learning independent study techniques.

**Personal development**
Participating in college activities outside of the classroom is an effective way to develop life skills such as teamwork, leadership and communication. It’s also a great way to meet students from other programs and make new friends.

For example, you could join Taylors Action Group (TAG), our voluntary student organisation. In TAG, you can become more involved in college life through fundraising and organising events. This includes organising Chinese New Year celebrations, college picnics and student welcome parties.

**Exploring Sydney**
Studying in the heart of Sydney provides further opportunities for you to learn outside the classroom. Activities such as museum trips offer cultural enrichment and a new way of learning. Our close proximity to the city’s central business district gives you easy access to Australia’s financial and business hub.

**University of Sydney Foundation Program (USFP) option**
For students who want to progress specifically to the University of Sydney, we offer an additional option on successful completion of Year 11. USFP is a pathway program that provides the academic foundation international students need to successfully progress into the University of Sydney, a top ranking Australian university.

USFP students are taught on the same campus and by the same teachers as the High School Program. They also join Year 12 students on visits to the University of Sydney.

To be awarded the Higher School Certificate, students must complete both Year 11 and 12.

---

**“It is very important that students learn to work with others. Group work teaches leadership skills, patience and listening.”**

JENNIE MASIA, ENGLISH TEACHER, STUDENT ADVISER AND CAREERS ADVISER

---

**RENATA FROM HUNGARY**
PREVIOUSLY STUDIED YEAR 10.
CURRENTLY STUDYING YEAR 11.

“At Taylors High School is the environment and the supportive teachers. The teachers are very patient, and give us as much help as possible to achieve our goals.

At Taylors, there are great studying areas such as the library and common room. In my free time, I like visiting new places and walking around Sydney, which is full of entertainment. After I graduate from Taylors High School, I am planning to continue my studies in tertiary education in the business field.”
The Higher School Certificate

Year 12 study

“Year 12 is all about interactive learning and building your assessment skills ready for the final HSC examination. We develop your organisational and time management abilities, as well as focusing on skills such as social interaction, personal confidence and respect.”

MARIO TORRELLI, HEAD OF ENGLISH

The Taylors College Year 12 High School program focuses on the future. You will complete your HSC studies, apply to university and explore your career options. You can only enter Year 12 if you have completed Year 11 at a New South Wales school.

Studying the Taylors College High School program in Year 12 will give you:
• a focus on independent learning
• tools and guidance to make successful university applications
• access to careers advisers and workshops
• opportunities for developing leadership skills through the Year 12 Leadership Program
Year 12 is the final step of the High School program, focusing on independent learning and exam preparation. We will help you to apply to universities and explore employment opportunities.

Independent learning

In Year 12, you will continue to benefit from our university-style environment ensuring you are well prepared for your university studies. You will undertake independent learning assignments including research and project work.

Continued academic and personal support

Independent learning is an important feature of the final year, but you will continue to receive a high level of support and one-to-one attention from your teachers. You can also join dedicated study groups where you can collaborate with other students and concentrate on achieving the grades you need.

Facilities to support your studies

At Taylors High School we provide the technology and facilities to support independent senior learning, including:
- Dedicated study rooms
- English Learning Centre
- Computer Access Rooms
- Library
- Access to online study tools: ClickView and StudySmart from home

University lectures and open days

University lecture days help you to find out about universities and decide where to apply. University representatives visit Taylors to talk about their courses and answer any questions. We also organise university visits where you can tour campuses, attend lectures and experience university life.

Support to apply to the university you choose

Unlike domestic High School students, international students can receive up to six university offers. As a Taylors College student, you can apply to multiple universities in Australia and around the world. With over 90 years’ experience, we understand what universities look for in candidates. We will guide you safely through each step of the university application process. From advising on university choices to completing application forms, we will ensure you have everything you need to succeed.

Career workshops

We offer a range of career activities to help you build skills needed for employment, gain experience and explore career options. These include volunteering opportunities, learning how to write a résumé and practising interview techniques. We also advise on local career opportunities.

To be awarded the Higher School Certificate, you must complete both Years 11 and 12.

YILIN FROM CHINA

COMPLETED YEAR 12 (HSC) IN 2015.
NOW STUDYING A BACHELOR OF NURSING
AT WESTERN SYDNEY UNIVERSITY.

“I think everyone just does their own work. But in Taylors High School, we do teamwork. We’ve got a study room and we all study together. I think it’s really, really good.”

JIAYI FROM CHINA, PREVIOUSLY STUDIED YEAR 12, CURRENTLY STUDYING BACHELOR OF EARLY CHILDHOOD AT UNIVERSITY OF WESTERN SYDNEY.

“High School students can apply to multiple universities in Australia and around the world. With over 90 years experience, we understand what universities look for in candidates.”

“I came here, I relaxed a lot. I can decide how to study. When I relax I can actually read more information. I’m more confident and I’ve got more friends here. They’re from different countries and all of us actually have the same experience. The teachers not only care about your studying, they also care about your life in Sydney.

After Year 12 I want to study Medical Science and probably go to the University of Sydney or the University of New South Wales.”

IN CHINA, EVERY DAY I WAS STUDYING FROM 7 O’CLOCK UNTIL 10 O’CLOCK AT NIGHT. WHEN I CAME HERE I RELAXED A LOT. I CAN DECIDE HOW TO STUDY. WHEN I RELAX I CAN ACTUALLY READ MORE INFORMATION.
Meet our teachers

I started teaching in 1985 and began working at Taylors College in 2000. Classes here are structured to cater to the needs of international students and are designed to academically prepare them for further study. ESL (English as a Second Language) is predominant, and our teachers are experts in this area. At Taylors, students are given more responsibility for learning and as a result develop better independent learning skills.

Taylors College provides quality, opportunity, understanding, trust and respect together with a high standard of academic learning.

I have been a teacher for over 20 years, and have worked in a diverse range of schools. My role includes teaching English, running the Study Skills program and assisting students in making informed university choices. I encourage discussion and questioning in class and often use personal experiences to help explain concepts.

As Dean of the High School I have the responsibility of making sure that all the students successfully complete the Higher School Certificate (HSC) and progress onto their chosen course at the university they have selected.

It is my responsibility to ensure that students elect courses that suit their interests, needs and talents. In addition, I am also responsible for ensuring that all students progress successfully through Years 10, 11 and 12, during which time they become mature young men and women, ready to face the challenges that the world has to offer them.

The benefits of studying High School at Taylors College in Sydney are that students are exposed to a variety of cultures, are taught by very committed teachers and they are encouraged to achieve their goals.

Also, Sydney is the best city in the world!

I encourage discussion and questioning in class and often use personal experiences to help explain concepts.

I am proud of the fact that we have had very successful HSC results. Our students have attained the highest scores in NSW in subjects such as English as a Second Language, Mathematics and in Chinese Background Speakers.

I have worked at Taylors College for 15 years. I help students to prepare for their futures by teaching them English skills, study skills and time management skills. More importantly, I encourage them to work hard, be optimistic and confident.

My teaching style is firm and fair: I believe students need boundaries and they also want to be heard.

I particularly enjoy teaching international students because it is incredibly rewarding to see how far they come academically and personally in the short time they are with us.

I particularly enjoy teaching international students because it is incredibly rewarding to see how far they come academically and personally in the short time they are with us.

The environment of Taylors is very different from that of other schools; it is more of a university environment. The students design their own study program by electing subjects they enjoy and excel in. We can even accommodate students who wish to study their native language as part of the HSC.

The benefits of studying High School at Taylors College in Sydney are that students are exposed to a variety of cultures, are taught by very committed teachers and they are encouraged to achieve their goals.

Also, Sydney is the best city in the world!
Where will I live?

Taylors High School offers a wide range of comfortable accommodation to international students. This ranges from safe and secure homestays with Australian families, to more independent student residence accommodation, apartments and houses.

Student residences
(for students aged 18+)

Student residences are the perfect option for students who want independent living combined with the safety and security of a supervised environment.

Our student residences are close to the college, providing comfortable, furnished student apartments. Each apartment has a private bathroom and kitchenette. To ensure safety and security the residences have live-in residential supervisors and swipe key access.

UniLodge

UniLodge offers furnished apartment-style living in a choice of city locations. Each building has communal areas in which you can cook and socialise with friends. Central Park is the newest location, and is close to a shopping centre, green spaces and transport links.

Urbanest

Experience ultra-modern furnished accommodation in the heart of Sydney at Urbanest. Located in Haymarket, Urbanest is a short walk from Central railway station and within easy reach of Taylors College and Sydney’s sights.

Homestay (compulsory for students aged under 18)

Living in homestay accommodation is a wonderful opportunity to experience Australian culture, live in a friendly and safe home environment and still enjoy your independence. Spending time with a host family is also a great way to get to know local people and practise your English.

All our homestay families are friendly and welcoming, and experienced in looking after international students. They are also police checked and inspected by us before students are placed there.

Independent accommodation (18+)

If you are over 18 and prefer to live in a house or apartment, our staff can help you find rental or other accommodation close to our campus.

Where will I live?

“Along the way, we have shopping malls and a train station. We usually just take a bus to college, it takes 25 minutes.”
LEA, UNILODGE CENTRAL PARK

“I can chat with friends and go to their room and we can cook together.”
MEI YUAN, UNILODGE CENTRAL PARK

“My favourite things about the house are my room and my bathroom, and I love Natasha (my host) making dinner. It’s very good in Homestay so don’t be nervous.”
VIVIEN, HOMESTAY STUDENT

Living costs in Sydney

For more information on living costs in Australia and the minimum financial requirements to receive a student visa please visit: studyinaustralia.gov.au/global/live-in-australia/living-costs
Where will I study?

Taylors is a modern international college with an established reputation for preparing overseas students for university. We have the experience, facilities and knowledge to support you at every step of your journey towards a successful future.

Preparing for university
There's a big difference between school and university. The High School program prepares you for university life by providing much more than academic learning. You will also develop soft skills, including communication, independent thinking and teamwork. When you graduate from Taylors, you will be prepared for university and future employment.

A modern, purpose-built campus
Our modern campus is purpose-built and provides all the facilities you need to learn effectively in class and independently. There are well-equipped laboratories for science students, computer rooms, study rooms, art and design studios and a library fitted with modern technology and digital resources. This learning environment will enable you to progress steadily throughout Years 10, 11 and 12.

Bring Your Own Device (BYOD)
If possible, students should bring their own computer to lessons due to significant instruction in the classroom being conducted using our College Intranet site ‘Study Smart’.

A well-rounded education
We believe that students do well in their studies and grow in confidence when they participate in activities outside of the classroom. We provide a wide range of activities to develop social and personal skills, including sports clubs, cultural trips, social clubs and regular college events. We’ll encourage you to join in, ensuring you receive a well-rounded education that develops your interests.

Community spirit
Students tell us that they value the warm and friendly community spirit at Taylors High School. You will be supported by an established team of experienced teachers and Student Support Services staff. You will feel very much at home here, and make friends for life.

Preparing for university
There’s a big difference between school and university. The High School program prepares you for university life by providing much more than academic learning. You will also develop soft skills, including communication, independent thinking and teamwork. When you graduate from Taylors, you will be prepared for university and future employment.

FACILITIES FOR OUR STUDENTS
• A large library and media centre on the 2nd floor
• A student common room with vending machines and table tennis equipment on the 2nd floor
• Peaceful, outdoor seating areas on the 4th floor
• A convenience store next to the college entrance
• A choice of nearby cafés and restaurants
• A bus stop right outside the college

What our students like best about Taylors College...

“My favourite place is the 4th floor because there are very comfy sofas.”
TINA, YEAR 11

“We have different classrooms for each subject.”
GING GING, YEAR 11

“I love the library.”
EVA, 2015 GRADUATE

“We have lots of computer rooms.”
GING GING, YEAR 11

“The classes are small so the teacher can focus more on each student.”
PHALLIN, YEAR 12

“There are a lot of cafés here! I often enjoy a cup of coffee and review my notes.”
PHALLIN, YEAR 12

“The school gives Year 12 a study room. It’s quiet and we can talk together.”
EVA, 2015 GRADUATE

“Bring Your Own Device (BYOD)”

We’ll encourage you to join in, ensuring you receive a well-rounded education that develops your interests.

Community spirit
Students tell us that they value the warm and friendly community spirit at Taylors High School. You will be supported by an established team of experienced teachers and Student Support Services staff. You will feel very much at home here, and make friends for life.
Academic English Preparation (AEP)

If you need additional support in reaching the required level of English language proficiency to join the High School program, AEP can help.

AEP at a glance
AEP will enable you to make fast, effective progress in speaking, writing, reading and listening. The program also includes:
- Study skills for academic learning, including exam techniques, critical analysis, note-taking and text scanning skills
- A personal study plan and appropriate course level to ensure you make fast progress
- One-to-one attention in a class with a maximum of 18 students
- Regular assessment, including tests and written reports

AEP takes place on campus and the program includes 2.5 hours in class per week. When you successfully complete AEP you can progress to the High School program without taking an IELTS test.

2017 TERM DATES
Intake 1: 2/1 to 10/3
Intake 2: 6/2 to 21/4
Intake 3: 20/3 to 26/5
Intake 4: 24/4 to 14/7
Intake 5: 12/6 to 18/8
Intake 6: 17/7 to 6/10
Intake 7: 4/9 to 10/11
Intake 8: 9/10 to 22/12
Intake 9: 20/11 to 2/2/18

Help and support
Joining Taylors High School may be your first time living away from home in a new country. We have dedicated teams of friendly and caring support, welfare and teaching staff to help you settle into college life.

Support and care from day one
Our teaching and support staff have many years’ experience of working with international students. They understand that students have different needs and cultural expectations. Everyone works together to help you to transition smoothly into your new environment. We organise an orientation program where you can make new friends and find your way around.

Student wellbeing
If you need someone to talk to or have any personal or academic concerns, our Student Support Services team is available to help. On-campus support includes first-aid officers, a health centre and a 24-hour emergency telephone number.

If you are under 18, a Taylors’ caregiver will liaise between your parents and the school. They will provide regular updates on your academic progress, health and extra-curricular activities.

Study support
To ensure you make good progress in your studies, our teachers offer free, personalised tuition. One-to-one tutorials are timetabled each week of the school year in all subject areas.

University and careers advice
With 90 years’ experience, we are experts in helping international students achieve their goals. We will coach you through the university application process, helping you complete application forms and advise on university choices. We also provide a comprehensive range of careers activities to explore career options and improve skills needed for employment.

“Takes any problem that a student is facing very seriously. If a student has an academic problem, I encourage them to see me during their free time or attend my tutorial so I can help them. If it’s a personal problem, I listen very carefully and then decide if any action needs to be taken.”

JENNIE MASIA, ENGLISH TEACHER, STUDENT ADVISER AND CAREER ADVISER
Course subject descriptions

Year 10
Day 10
Students study course from Key Learning Areas. The study of English, Mathematics, Science, HSC (Human Society and its Environment), Language, TDS, Technology and Applied/Student Assessment is the Year 10 Program. Baseline assessments and a variety of other assessments are required by the College for Internal Assessment. The students study all the following subjects in Year 10 at Taylors College High School.

Year 10 English
The English curriculum is built around the three interrelated strands of language, literacy, and oracy. Together the strands focus on developing students knowledge, understanding and skills in listening, viewing, reading, writing, and creating.

Year 10 Mathematics
Main topics covered:
- Algebra and equations
- Measurement
- Data representation and analysis
- Plane geometry
- Proportionality
- Functions

Year 10 Science
Main topics covered:
- Issues and energy
- Body systems
- Animal and plant cells
- Motion and Newton’s Laws
- pH, genetics and evolution
- Fossils: birds, atmospheric structure and reactions
- Organic and global systems.

Year 10 History
Overview of the modern world and Australia
- The inter-directs between war and world war I
- First world war
- The major movements for rights and freedom
- Cold War and Australia involvement.

Depth studies: there are three depth studies for this program.
- Holocaust (YHJ-III)
- Rights and freedom
- The globalization of our world.

Year 10 Geography
Year 10 Geography explores two main issues in Australia:
- The changing of the community
- Australia and neighbours country.

Languages - Year 10 Japanese
Main topics covered:
- Personal world: Greeting; Personal information
- Pastoral Care and Personal Development Program
- Clubs: students choose from a variety of social activities designed to enhance their communication skills.
- Diaries: to supplement their learning experiences in the classroom and to connect with the English speaking community.

Year 11 and Year 12 (Preliminary and HSC Courses)
In Year 11 at Taylors College, students select subjects that satisfy over one year in Year 11 and Year 12. English is the compulsory subject. Year 11 students need to study six subjects and Year 12 study six other subjects.

The five subjects of the Year 12 year must have been studied in Year 11. Preliminary courses are the prerequisite courses for the HSC courses.

English as a Second Language (ESL)
The course allows for students from diverse non-English speaking backgrounds as designated by the course entry requirements. The students engage in a variety of learning experiences to develop and consolidate their use, understanding and appreciation of English, so as to enhance their personal, social and vocational lives.

Year 11 ESL (English Preliminary Course)
Main topics covered:
- Language study within an area of study
- Oral and written language

Year 12 ESL (English HSC Course)
The course requires study of at least three different types of text from the categories of: prose fiction, drama, poetry, non-fiction, film or media or multimedia.
- Language study within an area of study
- Module A: Experience through language
- Module B: Texts and society

English (Standard)
The course allows for students who need to develop skills in using the English language effectively.
- The course equips students to participate in more satisfying learning; it assists them to meet the requirements of the English Standard courses or the English as a Second Language (ESL) course in Years 11 and 12.
- English language outcomes to support their study at St Kent’s.

The content of English Preliminary addresses the literacy needs of students undertaking the course and assists students to use the English language effectively in the study.

Year 11 Mathematics
Main topics covered:
- Number and Algebra
- Measurement and Geometry
- Statistics and Probability

Year 11 Mathematics Extension 1 Preliminary Course
Main topics covered:
- Complex numbers
- Further calculus and applications of calculus
- Further trigonometry
- Further probability
- Further applications of HSC 2 unit topics

Year 11 Mathematics Extension 2 HSC Course
Main topics covered:
- The nature of change in cities
- Non-linear functions
- Proof
- Further calculus
- Further probability
- Further applications of HSC 2 unit topics

Year 11 Mathematics Extension 3 HSC Course
Main topics covered:
- The nature of change in cities
- Non-linear functions
- Proof
- Further calculus
- Further probability
- Further applications of HSC 2 unit topics

Year 11 Mathematics Extension 4 HSC Course
Main topics covered:
- The nature of change in cities
- Non-linear functions
- Proof
- Further calculus
- Further probability
- Further applications of HSC 2 unit topics

Year 12 Mathematics Extension 1 (3 Units) HSC Course
Main topics covered:
- Simple harmonic motion and projective motion
- Further functions and inverse trigonometric functions
- Probability

Year 12 Mathematics Extension 2 HSC Course
Main topics covered:
- The nature of change in cities
- Non-linear functions
- Proof
- Further calculus
- Further probability
- Further applications of HSC 2 unit topics

Year 12 Mathematics Extension 3 HSC Course
Main topics covered:
- The nature of change in cities
- Non-linear functions
- Proof
- Further calculus
- Further probability
- Further applications of HSC 2 unit topics

Year 12 Mathematics Extension 4 HSC Course
Main topics covered:
- The nature of change in cities
- Non-linear functions
- Proof
- Further calculus
- Further probability
- Further applications of HSC 2 unit topics

English (Advanced)
Main topics covered:
- Content common to the Standard and Advanced courses
- Electives

Year 12 English (Advanced) Preliminary Course
Main topics covered:
- Tough topics

Year 12 English (Advanced) HSC Course
Main topics covered:
- Area of study
- Module A: Critical study of texts and context
- Module B: Critical study of texts
- Module C: Representation and text

Year 11 History
Main topics covered:
- Core topics
- Content common to the Standard and Advanced courses
- Electives
- Further applications of HSC 2 unit topics

Year 12 History Chemistry Course
Main topic covered:
- The chemistry of food
- The biochemistry of movement
- The chemistry of art
- Kinetic chemistry

Physics
Year 11 Physics Preliminary Course
Main topics covered:
- Mechanics
- Electromagnetism
- Energy

Year 12 Physics HSC Course
Main topics covered:
- Space
- Motors and generators
- From ideas to implementation
- An elective, either Quantum or Astrophysics.

Economics
Year 11 Economics Preliminary Course
Main topics covered:
- The modern economy
- Australia’s place in the global economy
- Economic issues
- Economic policies and management

Year 12 Economics HSC Course
Main topics covered:
- The global economy
- Industrial society
- Labour markets
- Financial markets
- Government and the economy

Business Studies
Year 11 Business Studies Preliminary Course
Main topics covered:
- Nature of business
- Business management
- Business planning

Year 12 Business Studies HSC Course
Main topics covered:
- Production
- Finance
- Marketing
- Marketing

Science - Year 11 Science
Main topics covered:
- Learning to develop a digital media campaign
- Learning to design a database
- Main topics covered:
  - Digital media course

Other Languages
Year 12 Japanese Beginners: To be eligible to study Japanese Beginners, you:
- Must have little or no previous knowledge of the language
- Must not have studied the language for more than 100 hours:
- Have attended for less than 100 hours.

Year 11 Chinese for Background Speakers
Main topics covered:
- Students study at least three topics in each year of the course.
- Topics are chosen from a list of 12, which cover a range of styles, periods and genres.

Year 12 Chinese for Background Speakers
Main topics covered:
- The world communicates
- The modern economy
- Industrial society
- Labour markets
- Financial markets
- Government and the economy

Japanese Beginners
Year 11 Japanese Beginners Preliminary Course
Main topics covered:
- Themes and topics
- Language for daily life and news
- Language for reading and writing
- Language for speaking
- Language for listening
- Language for understanding

Year 12 Japanese Beginners HSC Course
Main topics covered:
- Themes and topics
- Language for daily life and news
- Language for reading and writing
- Language for speaking
- Language for listening
- Language for understanding

Family life; home and neighbourhood; People, places and communities; Education and work; Friends, recreation and pastimes; holiday, travel and tourism; Futures and aspirations.

Other Languages
Year 11 Arabic Preliminary Course
Main topics covered:
- Language for daily life and news
- Language for reading and writing
- Language for speaking
- Language for listening
- Language for understanding

Year 12 Arabic HSC Course
Main topics covered:
- Themes and topics
- Language for daily life and news
- Language for reading and writing
- Language for speaking
- Language for listening
- Language for understanding

Family life; home and neighbourhood; People, places and communities; Education and work; Friends, recreation and pastimes; holiday, travel and tourism; Futures and aspirations.

Year 11 French Preliminary Course
Main topics covered:
- Language for daily life and news
- Language for reading and writing
- Language for speaking
- Language for listening
- Language for understanding

Year 12 French HSC Course
Main topics covered:
- Themes and topics
- Language for daily life and news
- Language for reading and writing
- Language for speaking
- Language for listening
- Language for understanding

Family life; home and neighbourhood; People, places and communities; Education and work; Friends, recreation and pastimes; holiday, travel and tourism; Futures and aspirations.

Year 11 German Preliminary Course
Main topics covered:
- Language for daily life and news
- Language for reading and writing
- Language for speaking
- Language for listening
- Language for understanding

Year 12 German HSC Course
Main topics covered:
- Themes and topics
- Language for daily life and news
- Language for reading and writing
- Language for speaking
- Language for listening
- Language for understanding

Family life; home and neighbourhood; People, places and communities; Education and work; Friends, recreation and pastimes; holiday, travel and tourism; Futures and aspirations.

How to apply

To apply direct (students)
Visit taylorscollege.edu.au/apply
or
Complete the application form and return it to the Admissions Centre at the address below, along with the supporting documents outlined in step two:

Admissions Centre, Level 24, 201 Elizabeth Street, Sydney, NSW 2000, Australia
Email: tcadmissions@studygroup.com

To apply through an agent
Complete the application form and return it to your local representative along with the supporting documents outlined in step two.

For a list of Taylors authorised representatives in your country, please visit taylorscollege.edu.au/about/agent

STEP 1
Complete all sections of the International Application for Admission form

STEP 2
Attach the following documents:
- Verified copies of your academic qualifications (translated into English);
- Evidence of English language proficiency;
- A copy of your passport and visa (if you have a current Australian visa)

STEP 3
Submit your application to a College local representative or directly to the Admissions Centre tcadmissions@studygroup.com

STEP 4
Your application will be reviewed for eligibility, and you will be notified in writing of the outcome.
